Building Competitiveness in Africa's Agriculture

A Guide to Value Chain Concepts and Applications

World Bank Publications **Value chain based approaches offer tremendous scope for market-based improvements in production, productivity, rural economy diversification, and household incomes, but are often covered by literature that is too conceptual or heavily focused on analysis. This has created a gap in the information available to planners, practitioners, and value chain participants. Furthermore, few references are available on how these approaches can be applied specifically to developing agriculture in Africa. 'Building Competitiveness in Africa s Agriculture: A Guide to Value Chain Concepts and Applications' describes practical implementation approaches and illustrates them with scores of real African agribusiness case studies. Using these examples, the 'Guide' presents a range of concepts, analytical tools, and methodologies centered on the value chain that can be used to design, implement, and evaluate agricultural and agribusiness development initiatives. It stresses principles of market focus, collaboration, information sharing, and innovation. The 'Guide' begins by examining core concepts and issues related to value chains. A brief literature review then focuses on five topics of particular relevance to African agricultural value chains. These topics address challenges faced by value chain participants and practitioners that resonate through the many cases described in the book. The core of the book presents methodological tools and approaches that blend important value chain concepts with the topics and with sound business principles. The tools and case studies have been selected for their usefulness in supporting market-driven, private-sector initiatives to improve value chains. The 'Guide' offers 13 implementation approaches, presented within the implementation cycle of a value chain program, followed by descriptions of actual cases. Roughly 60 percent of the examples are from Africa, while the rest come from Europe, Latin America, and Asia. The 'Guide' offers useful guidance to businesspeople, policy makers, representatives of farmer or trade organizations, and others who are engaged in agro-enterprise and agribusiness development. These readers will learn how to use value chain approaches in ways that can contribute to sound operational decisions, improved market linkage, and better results for enterprise and industry development.**

Computational Science - ICCS 2004

4th International Conference, Kraków, Poland, June 6-9, 2004, Proceedings, Part I

Springer The International Conference on Computational Science (ICCS 2004) held in Kraków, Poland, June 6-9, 2004, was a follow-up to the highly successful ICCS 2003 held at two locations, in Melbourne, Australia and St. Petersburg, Russia; ICCS 2002 in Amsterdam, The Netherlands; and ICCS 2001 in San Francisco, USA. As computational science is still evolving in its quest for subjects of investigation and efficient methods, ICCS 2004 was devised as a forum for scientists from mathematics and computer science, as the basic computing disciplines and application areas, interested in advanced computational methods for physics, chemistry, life sciences, engineering, arts and humanities, as well as computer system vendors and software developers. The main objective of this conference was to discuss problems and solutions in all areas, to identify new issues, to shape future directions of research, and to help users apply various advanced computational techniques. The event harvested recent developments in computational grids and next generation computing systems, tools, advanced numerical methods, data-driven systems, and novel application fields, such as complex systems, finance, economics and population evolution.

Agricultural Export Transportation Handbook

EXPORT - IMPORT AND LOGISTICS MANAGEMENT

PHI Learning Pvt. Ltd. This textbook, now in its Second Edition, continues to provide an easy and accessible introduction to the import-export and logistics management. With the globalization, international trade procedures and documentation have undergone remarkable changes over the last decade or so. This process of change got accelerated after the enactment of the Foreign Exchange Management Act, 1999. This, coupled with the thrust given to the liberalization process by the Government, has brought to fore the importance of export procedures and documentation and international logistics management. This comprehensive and revised book includes a new chapter on Foreign Exchange Risk Management and elaborates the procedures for availing different export incentives. Divided into eight parts, the text discusses the export-import environment, the procedures for obtaining finance by the exporter, convertibility of rupee, liberalization and its impact, the foreign exchange market, export-import procedures and documentation. Finally, the book also dwells upon the essentials of imports and logistics management including distribution channels and international marketing. This book, dealing with the principles and practice of the management of exports, imports and logistics, should be of a great benefit to the postgraduate students of business management (MBA), and inter-national business management (MIB). Besides, the book would prove to be useful as a handy reference for exporters, importers, managers and entrepreneurs.

From the Global to the Local

How International Rights Reach Bangladesh's Children

Routledge From the Global to the Local develops a unique perspective on human rights governance in developing countries, where the state often lacks the required resources, capacities and expertise for implementing rights. Considering how rights that have been agreed upon in the global arena of world politics are locally implemented, this book then specifically explores how they reach the local children of Bangladesh's urban slums and poor rural areas. Andrea Schapper combines an analytical framework grounded in international relations scholarship on global governance with empirical field research methods that have their basis in sociology and anthropology. Utilising this methodology, the book examines three principles that represent a global consensus on children's rights (the protection of children from the worst forms of child labor, providing them with primary education, and delivering basic health care services to them) to illuminating the need for local and contextual solutions to transnational issues. Exploring such concerns with vigor, this book fills a gap in the study of human rights implementation and protection and will thus be of immense interest to students of Law, of International Relations and of

Development Studies.

Importing Into the United States

A Guide for Commercial Importers

This edition of Importing Into the United States contains material pursuant to the Trade Act of 2002 and the Customs Modernization Act, commonly referred to as the Mod Act. Importing Into the United States provides wide-ranging information about the importing process and import requirements. We have made every effort to include essential requirements, but it is not possible for a book this size to cover all import laws and regulations. Also, this publication does not supersede or modify any provision of those laws and regulations. Legislative and administrative changes are always under consideration and can occur at any time. Quota limitations on commodities are also subject to change. Therefore, reliance solely on the information in this book may not meet the "reasonable care" standard required of importers.

Overcoming Impediments to U.S.-Russian Cooperation on Nuclear Nonproliferation

Report of a Joint Workshop

National Academies Press **The U.S. National Academies and the Russian Academy of Sciences convened a joint workshop to identify methods of overcoming impediments to cooperation between the United States and Russia on nonproliferation. The workshop emphasized approaches and techniques that have already been shown to work in U.S.-Russian programs and that might be applied in other areas. The workshop was intended to facilitate frank discussion between individuals in the United States and Russia who have some responsibility for cooperative nonproliferation programs in the hope of identifying both the impediments to cooperation and potential methods of addressing them. This report summarizes the discussions at the workshop.**

Revised Guide on Resource Revenue Transparency

International Monetary Fund **The Guide, which is a companion document to the IMF's Code of Good Practices on Fiscal Transparency (2007), has been revised to reflect the new Code and to provide more recent examples of good practice by individual countries. The Guide applies the good practices of the Code to the unique set of transparency issues faced by countries that derive a significant share of revenues from natural resources. It addresses issues arising both from the sheer size and volatility of such resources and the technical complexity of the transaction flows. The Guide supplements the Manual on Fiscal Transparency (2007).**
