THE LIVING BUDDHA

AN INTERPRETIVE BIOGRAPHY

Middleway Press An intimate portrayal of one of history's most important and obscure figures, the Buddha, this chronicle reveals him not as a mystic, but a warm and engaged human being that was very much the product of his turbulent times. This biographical account traces the path of Siddhartha Gautama as he walked away from the pleasure palace that had been his home and joined a growing force of wandering monks, ultimately making his way towards enlightenment beneath the bodhi tree, and spending the next 45 years sharing his insights along the banks of the Ganges. The Buddhist canon is expertly harvested to provide insight into the Buddha's inner life and to grant a better understanding of how he came to play his pivotal role as founder of one of the world's largest religions.

THE FLOWER OF CHINESE BUDDHISM

Middleway Press Beginning with the introduction of the religion into China, this chronicle depicts the evolution of Buddhism. The career and achievements of the great Kumarajiva are investigated, exploring the famed philosophical treatises that form the core of East Asian Buddhist literature. Providing a useful and accessible introduction to the influential Tien-t'ai school of Buddhism in Japan as well as the teachings of the 13th-century monk Nichiren, this examination places special emphasis on the faith of the Lotus Sutra and the major works of masters such as Hui-su, Chih-i, and Chanjan. From the early translations of the Buddhist scriptures to the persecution of the T'ang dynasty, this exploration illuminates the role of Buddhism in Chinese society, and by extension, in humanity in general.

THE HISTORY AND THEOLOGY OF SOKA GAKKAI

A JAPANESE NEW RELIGION

Edwin Mellen Press The Soka Gakkai, with 10 million members, is seen as a critically important force in Japan and remains the biggest of Japan's new religions. Here, the author outlines the eschatological worldview of the Soka Gakkai and gives an analysis of its American branch. The text gives a picture of Soka Gakkai as a rather mature' or mellow religion grown older, both in membership and in institutional character. The religion is seen to have given up the rather aggressive proselytizing style and confrontational politics that made it notorious in Japan and among Soka Gokkai] bashers' in the West.

BUDDHIST MISSIONARIES IN THE ERA OF GLOBALIZATION

University of Hawaii Press This insightful volume dispels the common notion that Buddhism is not a missionary religion by revealing Asian Buddhists as active agents in the propagation of their faith. It presents at the same time a new framework with which to study missionary activity in both Buddhist and other religious traditions. Included are case studies of Theravada, Chinese, and Tibetan Buddhist teachers and congregations, as well as the Pure Land, Shingon, Zen, and Soka Gakkai traditions of Japan. Contributors examine both foreign and domestic missions and the activities of emigrant communities, showing the resources and strategies garnered by late-nineteenth- and twentieth-century Buddhists who worked to uphold and further their respective traditions, often under difficult circumstances. Based on anthropological fieldwork and historical research, the essays break new ground and provide better analytical tools for studying mission activity than previously available. They provide instructive comparisons with Anglo-American Protestant missionary thinking and offer insights into the internal dynamics of Sri Lankan and Japanese missions as they make their way in Protestant and Catholic societies. Also included are nuanced studies of two major missionary figures in late twentieth-century Chinese Buddhism and a fascinating look at the present Dalai Lama's relationships with his devotees and the American government, viewed through an exposition of the abiding tradition within Tibetan Buddhism that combines mission activity with the political goals of exiled lamas. Contributors: Stuart Chandler; Peter B. Clarke; C. Julia Huang; Steven Kemper; Linda Learman; Sarah LeVine; Richard K. Payne; Cristina Rocha; George J. Tanabe, Jr.; Gray Tuttle.

THE WISDOM OF TOLERANCE

A PHILOSOPHY OF GENEROSITY AND PEACE

Bloomsbury Publishing What do Buddhism and Islam have in common? And what positive characteristics might Buddhist Japan and Muslim Indonesia be able to offer one another? In this thoughtful and wide-ranging discussion which draws on creative artists and thinkers as diverse as Beethoven, Goethe, Tolstoy, Thomas Jefferson and Akira Kurosawa distinguished representatives from each country demonstrate that meaningful dialogue between religions and cultures begins with a one-to-one conversation between individuals. Addressing the similarities of their nations as island peoples, with a shared history of trade and cultural exchange, Abdurrahman Wahid and Daisaku Ikeda agree that the aim of dialogue, like that of Buddhism and Islam alike, is fundamentally the goal of peace. A pivotal moment in the conversation comes when reference is made to the Indonesian story of the Bamboo Princess, from the Chronicle of the Kings of Pasai; this is seen to bear close resemblance to the Japanese Taketori Monogatari, or 'Tale of the Bamboo Cutter'. Such narrative interrelationship which can be discerned even in the midst of religious and cultural distinctiveness emerges as a powerful symbol of the common humanity not just of Indonesia and Japan but of all cultures. Both thinkers continue to draw on their respective traditions, on their personal experiences of war and adversity, and especially on the lives of the Buddha and the Prophet Mohammed, to show that harmony springs from an attitude of tolerance and nonviolence which is where true courage resides. Whether masterfully expounding the teachings of Nichiren, or indicating that a proper understanding of jihad is not about religious conflict but about communicating the truth of Allah, the discussants mutually transform our understandings of value, pluralism, and amity.

BUDDHISM

DAY BY DAY: WISDOM FOR MODERN LIFE

A NEW HUMANISM

THE UNIVERSITY ADDRESSES OF DAISAKU IKEDA

Bloomsbury Publishing 'The natural sympathy and understanding of people everywhere must be the soil in which the new humanism can thrive.' For Daisaku Ikeda, whose words these are, education has long been one of the fundamental priorities of his work and teaching. His emphasis on the intellectual legacy bequeathed to humanity by the great teachers of civilization is in this volume encapsulated by the notion of a 'new humanism': a significant residue of wisdom that in the right circumstances may be passed on to future generations, expanding horizons, making connections between different cultures and encouraging fresh insights and new discoveries across the globe. These circumstances are perhaps most fully realised in the context of universities. In promoting his core values of education and peace, the author has delivered lectures and speeches at more than twenty-five academies, colleges and research institutes worldwide. This stimulating collection, which includes the author's most recent lectures, ranges widely across topics as diverse as art, religion, culture and time, and draws creatively on the sages of ancient India, China and Japan as well as on visionary thinkers from every nation, including Tolstoy, Victor Hugo and Gandhi.

ENGAGED BUDDHISM IN THE WEST

Simon and Schuster **Engaged Buddhism** is founded on the belief that genuine spiritual practice requires an active involvement in society. Engaged Buddhism in the West illuminates the evolution of this new chapter in the Buddhist tradition - including its history, leadership, and teachings - and addresses issues such as violence and peace, race and gender, homelessness, prisons, and the environment. Eighteen new studies explore the activism of renowned leaders and organizations, such as Thich Nhat Hanh, Bernard Glassman, Joanna Macy, the Buddhist Peace Fellowship, and the Free Tibet Movement, and the emergence of a new Buddhism in North America, Europe, South Africa, and Australia.

WHAT DO BUDDHISTS BELIEVE?

Granta Books 'I believe that every human being has an innate desire for happiness and does not want to suffer. I also believe that the very purpose of life is to experience this happiness' The Dalai Lama Buddhism is one of the world's oldest and most widespread belief systems. Its history spans two and a half thousand years and Buddhism today has over 500 million adherents throughout almost every country in the world. Virtually unknown outside Asia until the last century, it is now the fastest-growing religion in the West. What is it about Buddhism that attracts so many in an age when people seem to be turning away from organized religion? The teachings of Buddhism are voluminous and varied, and it has a well-developed philosophical and mystical dimension; but at its core is a simple set of propositions and practices designed to meet the practical day-to-day concerns of ordinary people: how to live a compassionate, creative, wise and, above all, happy life. Tony Morris explores Buddhism's appeal and gives an acute insight into its essential beliefs.

COMPASSIONATE LIGHT IN ASIA

A DIALOGUE

Bloomsbury Publishing 'Life is a drama of encounters', writes Daisaku Ikeda at the beginning of this dialogue: 'Beautiful encounters. Momentary encounters. Each person's drama is unique.' This particular encounter, between a celebrated Chinese novelist and prominent Japanese religious leader, illustrates the truth of that reflection. For in the discussion that stemmed from their meetings, Jin Yong (who is sometimes called 'the Asian Dumas') and Daisaku Ikeda were able to find remarkable common ground - what they refer to as a 'karmic bond' - resulting from the particularity of their experiences in wartime and mutual resistance to adversity. Ranging across a variety of engaging themes, the interlocutors explore such topics as the nature of friendship; theories of civilization; world literatures that have inspired them; the importance of free speech; Buddhist perspectives on life and death; and the spiritual search for truth. There is sustained reflection on the horrors of war, and a plea for the importance of memory: Daisaku Ikeda emphasises that 'peace is a battle against forgetfulness', while Jin Yong echoes this in his observation that 'most important is to strive to avoid war, whether it is between countries and whether it be domestic, and thus to enable people to build and improve their lives in a peaceful environment.' Cultural differences between the peoples of China and Japan are explored, sometimes amusingly, with the Japanese propensity for discipline and rules contrasted with the Chinese spirit of creative individualism. But the authors are focused above all on serious issues of meaning and identity, and they reveal the mutual solace both have found - in the face of personal loss and bereavement - in the Buddhist scriptures, especially the Lotus Sutra. Demonstrating a remarkable capacity for empathy throughout, they incarnate in their lives and work an intelligent and sympathetic compassion that represents a beacon of hope to the future direction of Sino-Japanese relations.

THE POLITICS OF BUDDHIST ORGANIZATIONS IN TAIWAN, 1989-2003

SAFEGUARD THE FAITH, BUILD A PURE LAND, HELP THE POOR

Routledge Laliberté looks at a relatively unexplored aspect of modern Taiwan: the influence of religion on politics. This book offers a detailed survey of three of the most important Buddhist organizations in Taiwan: the Buddhist Association of the Republic of China (BAROC), the Buddha Light Mountain (or Foguanshan) monastic order, and the Buddhist Compassion Relief Tzu Chi Association (or Ciji). It examines their contrasting approaches to three issues: state supervision of religion, the first presidential election of 1996, and the establishment of the National Health Insurance. This study analyzes the factors that explain the diverse paths the three organizations have taken in the politics of Taiwan. Based on an in-depth examination of Buddhist leaders' behaviour, *The Politics of Buddhist Organizations in Taiwan* compels us to question conventional views about the allegedly passive aspect of religious tradition, deference to authority in societies influenced by Confucian culture and the adverse legacy of authoritarian regimes.

THE STAR SPANGLED BUDDHIST

ZEN, TIBETAN, AND SOKA GAKKAI BUDDHISM AND THE QUEST FOR ENLIGHTENMENT IN AMERICA

Simon and Schuster "A succinct but illuminating overview" of the Eastern religion that has grown so popular among spiritual seekers in the U.S. (Publishers Weekly). Millions of Americans call themselves Buddhist or have an interest in Buddhism's philosophical tenets, attracted to an approach to spirituality that's grounded in logic and consistent with scientific knowledge. *The Star-Spangled Buddhist* is a provocative look at these American Buddhists through the three largest movements in the United States: the Soka Gakkai International, Tibetan/Vajrayana Buddhism, and Zen Buddhism. The practice of each of these American schools, unlike most traditional Asian Buddhist sects, is grounded in the notion that all people are capable of attaining enlightenment in "this lifetime." But the differences between the American Buddhist schools are also profound, spanning the full spectrum of philosophical expression and doctrines. Jeff Ourvan, a lifelong-practicing lay Buddhist, explores the American Buddhist movement through its most popular schools, giving a clearer understanding about what it means to be—and how one might choose to be—a Buddhist in America.

BUDDHISM IN AMERICA

Columbia University Press Over the past half century in America, Buddhism has grown from a transplanted philosophy to a full-fledged religious movement, rich in its own practices, leaders, adherents, and institutions. Long favored as an essential guide to this history, **Buddhism in America** covers the three major groups that shape the tradition—an emerging Asian immigrant population, native-born converts, and old-line Asian American Buddhists—and their distinct, yet spiritually connected efforts to remake Buddhism in a Western context. This edition updates existing text and adds three new essays on contemporary developments in American Buddhism, particularly the aging of the baby boom population and its effect on American Buddhism's modern character. New material includes revised information on the full range of communities profiled in the first edition; an added study of a second generation of young, Euro-American leaders and teachers; an accessible look at the increasing importance of meditation and neurobiological research; and a provocative consideration of the mindfulness movement in American culture. The volume maintains its detailed account of South and East Asian influences on American Buddhist practices, as well as instances of interreligious dialogue, socially activist Buddhism, and complex gender roles within the community. Introductory chapters describe Buddhism's arrival in America with the nineteenth-century transcendentalists and rapid spread with the Beat poets of the 1950s. The volume now concludes with a frank assessment of the challenges and prospects of American Buddhism in the twenty-first century.

SOKA GAKKAI'S HUMAN REVOLUTION

THE RISE OF A MIMETIC NATION IN MODERN JAPAN

University of Hawaii Press Soka Gakkai is Japan's largest and most influential new religious organization: It claims more than 8 million Japanese households and close to 2 million members in 192 countries and territories. The religion is best known for its affiliated political party, Komeito (the Clean Government Party), which comprises part of the ruling coalition in Japan's National Diet, and it exerts considerable influence in education, media, finance, and other key areas. Levi McLaughlin's comprehensive account of Soka Gakkai draws on nearly two decades of archival research and non-member fieldwork to account for its institutional development beyond Buddhism and suggest how we should understand the activities and dispositions of its adherents. McLaughlin explores the group's Nichiren Buddhist origins and turns to insights from religion, political science, anthropology, and cultural studies to characterize Soka Gakkai as mimetic of the nation-state. Ethnographic vignettes combine with historical evidence to demonstrate ways Soka Gakkai's twin Buddhist and modern humanist legacies inform the organization's mimesis of the modern Japan in which the group took shape. To make this argument, McLaughlin analyzes Gakkai sources heretofore untreated in English-language scholarship; provides a close reading of the serial novel *The Human Revolution*, which serves the Gakkai as both history and de facto scripture; identifies ways episodes from members' lives form new chapters in its growing canon; and contributes to discussions of religion and gender as he chronicles the lives of members who simultaneously reaffirm generational transmission of Gakkai devotion as they pose challenges for the organization's future. Readers looking for analyses of the nation-state and strategies for understanding New Religions and modern Buddhism will find *Soka Gakkai's Human Revolution* to be an especially thought-provoking study that offers widely applicable theoretical models.

ZEN AT WAR

Rowman & Littlefield Publishers A compelling history of the contradictory, often militaristic, role of Zen Buddhism, this book meticulously documents the close and previously unknown support of a supposedly peaceful religion for Japanese militarism throughout World War II. Drawing on the writings and speeches of leading Zen masters and scholars, Brian Victoria shows that Zen served as a powerful foundation for the fanatical and suicidal spirit displayed by the imperial Japanese military. At the same time, the author recounts the dramatic and tragic stories of the handful of Buddhist organizations and individuals that dared to oppose Japan's march to war. He follows this history up through recent apologies by several Zen sects for their support of the war and the way support for militarism was transformed into 'corporate Zen' in postwar Japan. The second edition includes a substantive new chapter on the roots of Zen militarism and an epilogue that explores the potentially volatile mix of religion and war. With the increasing interest in Buddhism in the West, this book is as timely as it is certain to be controversial.

ENCOUNTERING THE DHARMA

DAISAKU IKEDA, SOKA GAKKAI, AND THE GLOBALIZATION OF BUDDHIST HUMANISM

Univ of California Press This engaging, deeply personal book, illuminating the search for meaning in today's world, offers a rare insider's look at Soka Gakkai Buddhism, one of Japan's most influential and controversial religious movements, and one that is experiencing explosive growth around the world. Unique for its multiethnic make-up, Gakkai Buddhists can be found in more than 100 countries from Japan to Brazil to the United States and Germany. In *Encountering the Dharma*, Richard Seager, an American professor of religion trying to come to terms with the death of his wife, travels to Japan in search of the spirit of the Soka Gakkai. This book tells of his journey toward understanding in a compelling narrative woven out of his observations, reflections, and interviews, including several rare one-on-one meetings with Soka Gakkai president Daisaku Ikeda. Along the way, Seager also explores broad-ranging controversies arising from the Soka Gakkai's efforts to rebuild post-war Japan, its struggles with an ancient priesthood, and its motives for propagating Buddhism around the world. One turning point in his understanding comes as Ikeda and the Soka Gakkai strike an authentically Buddhist response to the events of September 11, 2001.

CONTROVERSIAL NEW RELIGIONS

Oxford University Press (UK) In terms of public opinion, new religious movements are considered controversial for a variety of reasons ranging from how they speak, dress, and eat, to the way they think and their sense of community. Their social organization often runs counter to popular expectations by experimenting with communal living (or strict individualism), alternative leadership roles (or flat network structures), unusual economic dispositions, and new political and ethical values. As a result the general public views new religions with a mixture of curiosity, amusement, and anxiety, sustained by lavish media emphasis on oddness and tragedy rather than familiarity and lived experience. This updated and revised second edition of *Controversial New Religions* offers a scholarly, dispassionate look at those groups that have generated the most attention, including some very well-known classical groups like The Family, Unification Church, Scientology, and Jim Jones' People's Temple; some relative newcomers such as the Kabbalah Centre, the Order of the Solar Temple, Branch Davidians, Heaven's Gate, and the Falun Gong; and some interesting cases like contemporary Satanism, the Raelians, Black nationalism, and various Pagan groups. Written by established scholars as well as younger experts in the field,

each essay combines an overview of the history and beliefs of each organization or movement with original and insightful analysis. By presenting decades of scholarly work on new religious movements in an accessible form, this book will be an invaluable resource for all those who seek a view of new religions that is deeper than what can be found in sensationalistic media stories.

A DIALOGUE BETWEEN JOHAN GALTUNG AND DAISAKU IKEDA

Pluto Press Johan Galtung and Daisaku Ikeda are two major figures in international peace studies. Ikeda is a leading Buddhist, author and educator and is deeply rooted in the Mahayana Buddhism of Nichiren. Galtung is the founder of the Institute for Peace Research in Oslo and has developed a more general Buddhist orientation. Together, through dialogue, they search for ways of interfacing Buddhism and peace. Presented as a dialogue between the two men, Choose Peace explores practical solutions to many of the global problems afflicting the world today. Galtung and Ikeda identify sources of violence and unrest and consider the role of Buddhism in formulating peaceful solutions to violence. The implications of political forces such as nationalism and socialism are considered and the role of human rights, grassroots power and the United Nations in peacekeeping initiatives are explored.
