Assessing the Need to Regulate Additional Financial Activities : Report to Congressional Committees

Changing Places

The Science and Art of New Urban Planning

Princeton University Press "Urban policy innovations designed to confront the many challenges that cities face abound. In most cases, there is little evidence that a given intervention has achieved the desired outcome. In Changing Places, MacDonald, Branas and Stokes argue that there is a widespread disconnect between those who implement place-based changes-such as planners and building or land developers-and the community of scientists who are now starting to rigorously evaluate these changes. They emphasize that planners and developers need to recognize the value of scientific testing and that scientists need to embrace the indispensable and action-oriented work of planners and land developers. Though there have been other calls for place-based research, the authors focus specifically on structural interventions that are scalable and sustainable. They draw on research from multiple fields-city planning, criminology, economics, epidemiology, public health, and more-to demonstrate that well-designed changes to place can significantly improve the health and safety of large groups of people. The manuscript covers a broad range of interventions, including those focused on building and housing, land and open space, transportation and street environments, and entertainment and recreation centers. The book ends with a discussion of unintended consequences and suggestions for future research"--

Securities Firms

Assessing the Need to Regulate Additional Financial Activities

DIANE Publishing Examines the issues associated with the regulatory structure for overseeing the domestic and foreign affiliates of U.S. broker-dealers. Recommends that the SEC use its new authority under the Market Reform Act of 1990 to obtain information to evaluate the risks about unregulated financial activities of the affiliated and holding companies of U.S. securities firms and to determine the need for any further regulation of them. Graphs and charts.

Little Horrors

How Cinema's Evil Children Play on Our Guilt

McFarland Zombies, werewolves and chainsaw-wielding maniacs are tried-and-true staples of horror films. But none can match the visceral dread evoked by a child with an innocent face and a diabolical stare. Cinema's evil children attack our cherished ideas of innocence and our innocent bystander status as the audience. A good horror film is a scary ride—a "devil child" movie is a guilt trip. This book examines 24 international films—with discussions of another 100—that in effect "indict" viewers for crimes of child abuse and abandonment, greed, social and ecological negligence, and political and war crimes, and for persistent denial of responsibility for them all. For 75 years evil children have ritually rebuked audiences and, in playing on our guilt, established a horror subgenre that might be described as a blood-spattered rampage on an ethical mission.

United States Official Postal Guide

Creating a Place For Ourselves

Lesbian, Gay, and Bisexual Community Histories

Routledge Creating a Place For Ourselves is a groundbreaking collection of essays that examines gay life in the United States before Stonewall and the gay liberation movement. Along with examining areas with large gay communities such as New York, San Francisco and Fire Island, the contributors also consider the thriving gay populations in cities like Detroit, Buffalo, Washington, D.C., Birmingham and Flint, demonstrating that gay communities are truly everywhere. Contributors: Brett Beemyn, Nan Alamilla Boyd, George Chauncey, Madeline Davis, Allen Drexel, John Howard, David Johnson, Liz Kennedy, Joan Nestle, Esther Newton, Tim Retzliff, Marc Stein, Roey Thorpe.

Progressive Library Organizations

A Worldwide History

McFarland This work presents the history and impact of the seven most important progressive library organizations worldwide--in Austria, Germany, South Africa, Sweden, United Kingdom, and two in the United States. Each organization is considered within its national context, and in fact, the English word "organization" does not quite fit the nature of all of the groups. The South African organization, LIWO, was transitional in that it helped bring South African librarianship from apartheid to majority rule and then disbanded. The other organizations or their successors are still working in one form or another. Some of the organizations have had or continue to have vibrant local chapters, though many of the original activists have recently retired or died. The author has interviewed many of them at a time when they were assessing their life work, and handing off to new generations.

Reading Graphic Design in Cultural Context

Bloomsbury Visual Arts Reading Graphic Design in Cultural Context explains key ways of understanding and interpreting the graphic designs we see all around us, in advertising, branding, packaging and fashion. It situates these designs in their cultural and social contexts. Drawing examples from a range of design genres, leading design historians Grace Lees-Maffei and Nicolas P. Maffei explain theories of semiotics, postmodernism and globalisation, and consider issues and debates within visual communication theory such as legibility, the relationship of word and image, gender and identity, and the impact of digital forms on design. Their discussion takes in well-known brands like Alessi, Nike, Unilever and Tate, and everyday designed

things including slogan t-shirts, car advertising, ebooks, corporate logos, posters and music packaging.

forces that will help make it better.

New York Magazine

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Corporate Financial Distress, Restructuring, and Bankruptcy

Analyze Leveraged Finance, Distressed Debt, and Bankruptcy

Wiley A comprehensive look at the enormous growth and evolution of distressed debt markets, corporate bankruptcy, and credit risk models This Fourth Edition of the most authoritative finance book on the topic updates and expands its discussion of financial distress and bankruptcy, as well as the related topics dealing with leveraged finance, high-yield, and distressed debt markets. It offers state-of-the-art analysis and research on U.S. and international restructurings, applications of distress prediction models in financial and managerial markets, bankruptcy costs, restructuring outcomes, and more.

Personal Web Usage in the Workplace

A Guide to Effective Human Resources Management

IGI Global Readings in Virtual Research Ethics: Issues and Controversies provides an in-depth look at the emerging field of online research and the corresponding ethical dilemmas associated with it. Issues related to traditional research ethics such as autonomy or respect for persons, justice, and beneficence are extended into the virtual realm and such areas as subject selection and recruitment, informed consent, privacy, ownership of data, and research with minors, among many others are explored in the media and contexts of email surveys and interviews, synchronous

chat, virtual ethnography, asynchronous discussion lists, and newsgroups.

Iron Age

The Financial Crisis Inquiry Report The Final Report of the National Commission on the Causes of the Financial and Economic Crisis in the United States Including Dissenting Views

Cosimo, Inc. The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world.

THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government."

News Dissector DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film In Debt We Trust warned of the economic meltdown in 2006. He has since written three books on the subject including Plunder: Investigating Our Economic Calamity (Cosimo Books, 2008), and The Crime Of Our Time: Why Wall Street Is Not Too Big to Jail (Disinfo Books, 2011), a companion to his latest film Plunder The Crime Of Our Time. He can be reached online at www.newsdissector.com.

Including examples, cases, questions and suggestions for further reading, this book is designed to accompany classes on strategic planning, cultural management or arts management"--

Globalization and Social Movements

Islamism, Feminism, and the Global Justice Movement

Rowman & Littlefield This clear and concise book examines social movements and transnational networks in the context of globalization in all its forms economic, political, cultural, and technological alike. Deftly combining nuanced theory with rich empirical examples, leading scholar Valentine M. Moghadam focuses especially on three transnational social movements Islamism, feminism, and global justice. Now updated to explore the European anti-austerity protests, the Arab Spring, and Occupy Wall Street, the book considers the ways in which these socio-political protests were affected especially by the role of young people and social networking media. The book also includes a new chapter on the democratic nature of social movements, or the ways in which social movements contribute to democratization at both national and global levels. Defining globalization as a complex process in which the movement of capital, peoples, organizations, movements, and ideas takes on an increasingly international form, the author shows how growing physical and electronic mobility has helped to create dynamic global social movements. Exploring the historical roots of Islamism, feminism, and global justice, the book also shows how these movements have been stimulated by relatively recent globalization processes. Moghadam examines similarities and differences among the three movements, along with internal differentiation within each. Her argument is informed by feminist, world-systems, world polity, and social movement theories in a seamlessly integrated framework that will be essential reading for all students of globalization."

The Railway Age and Northwestern Railroader

The Railway Age

On the Irish Waterfront

The Crusader, the Movie, and the Soul of the Port of New York

*Cornell University Press Site of the world's busiest and most lucrative harbor throughout the first half of the twentieth century, the Port of New York was also the historic preserve of Irish American gangsters, politicians, longshoremen's union leaders, and powerful Roman Catholic pastors. This is the demimonde depicted to stunning effect in Elia Kazan's *On the Waterfront* (1954) and into which James T. Fisher takes readers in this remarkable and engaging historical account of the classic film's backstory. Fisher introduces readers to the real "Father Pete Barry" featured in *On the Waterfront*, John M. "Pete" Corridan, a crusading priest committed to winning union democracy and social justice for the port's dockworkers and their families. A Jesuit labor school instructor, not a parish priest, Corridan was on but not of Manhattan's West Side Irish waterfront. His ferocious advocacy was resisted by the very men he sought to rescue from the violence and criminality that rendered the port "a jungle, an outlaw frontier," in the words of investigative reporter Malcolm Johnson. Driven off the waterfront, Corridan forged creative and spiritual alliances with men like Johnson and Budd Schulberg, the screenwriter who worked with Corridan for five years to turn Johnson's Pulitzer Prize-winning 1948 newspaper exposé into a movie. Fisher's detailed account of the waterfront priest's central role in the film's creation challenges standard views of the film as a post facto justification for Kazan and Schulberg's testimony as ex-communists before the House Committee on Un-American Activities. *On the Irish Waterfront* is also a detailed social history of the New York/New Jersey waterfront, from the rise of Irish American entrepreneurs and political bosses during the World War I era to the mid-1950s, when the emergence of a revolutionary new mode of cargo-shipping signaled a radical reorganization of the port. This book explores the conflicts experienced and accommodations made by an insular Irish-Catholic community forced to adapt its economic, political, and religious lives to powerful forces of change both local and global in scope.*

The Dream Machine

The Untold History of the Notorious V-22 Osprey

Simon and Schuster WHEN THE MARINES decided to buy a helicopter-airplane hybrid “tiltrotor” called the V-22 Osprey, they saw it as their dream machine. The tiltrotor was the aviation equivalent of finding the Northwest Passage: an aircraft able to take off, land, and hover with the agility of a helicopter yet fly as fast and as far as an airplane. Many predicted it would reshape civilian aviation. The Marines saw it as key to their very survival. By 2000, the Osprey was nine years late and billions over budget, bedeviled by technological hurdles, business rivalries, and an epic political battle over whether to build it at all. Opponents called it one of the worst boondoggles in Pentagon history. The Marines were eager to put it into service anyway. Then two crashes killed twenty- three Marines. They still refused to abandon the Osprey, even after the Corps’ own proud reputation was tarnished by a national scandal over accusations that a commander had ordered subordinates to lie about the aircraft’s problems. Based on in-depth research and hundreds of interviews, *The Dream Machine* recounts the Marines’ quarter-century struggle to get the Osprey into combat. Whittle takes the reader from the halls of the Pentagon and Congress to the war zone of Iraq, from the engineer’s drafting table to the cockpits of the civilian and Marine pilots who risked their lives flying the Osprey—and sometimes lost them. He reveals the methods, motives, and obsessions of those who designed, sold, bought, flew, and fought for the tiltrotor. These stories, including never before published eyewitness accounts of the crashes that made the Osprey notorious, not only chronicle an extraordinary chapter in Marine Corps history, but also provide a fascinating look at a machine that could still revolutionize air travel.

British Drama 1533-1642: A Catalogue

Volume VI: 1609-1616

Oxford University Press This is the sixth volume of a detailed play-by-play catalog of drama written by English, Welsh, Irish, and Scottish authors during the 110 years between the English Reformation to the English Revolution, covering every known play, extant and lost, including some which have never before been identified. It is based on a complete, systematic survey of the whole of this body of work, presented in chronological order. Each entry contains comprehensive information about a single play: its various titles, authorship, and date; a summary of its plot, list of its roles, and details of the human and geographical world in which the fictional action

takes place; a list of its sources, narrative and verbal, and a summary of its formal characteristics; details of its staging requirements; and an account of its early stage and textual history.
