# Islam and the Destiny of Man

*SUNY Press* **Islam and the Destiny of Man** by Charles Le Gai Eaton is a wide-ranging study of the Muslim religion from a unique point of view. The author, a former member of the British Diplomatic Service, was brought up as an agnostic and embraced Islam at an early age after writing a book (commissioned by T.S. Eliot) on Eastern religions and their influence upon Western thinkers. As a Muslim he has retained his adherence to the perennial philosophy which, he maintains, underlies the teachings of all the great religions. The aim of this book is to explore what it means to be a Muslim, a member of a community which embraces a quarter of the world's population and to describe the forces which have shaped the hearts and the minds of Islamic people. After considering the historic confrontation between Islam and Christendom and analysing the difference between the three monotheistic faiths (Judaism, Christianity, and Islam), the author describes the two poles of Muslim belief in terms of "Truth" and "Mercy"—the unitarian truth which is the basis of the Muslim's faith and the mercy inherent in this truth. In the second part of the book he explains the significance of the Qur'an and tells the dramatic story of Muhammad's life and of the early Caliphate. Lastly, the author considers the Muslim view of man's destiny, the social structure of Islam, the role of art and mysticism and the inner meaning of Islamic teaching concerning the hereafter. Throughout this book the author is concerned not with the religion of Islam in isolation, but with the very nature of religious faith, its spiritual and intellectual foundations, and the light it casts upon the mysteries and paradoxes of the human condition.

## Destiny's Landfall

# A History of Guam, Revised Edition

*University of Hawaii Press* This revised edition of the standard history of Guam is intended for general readers and students of the history, politics, and government of the Pacific region. Its narrative spans more than 450 years, beginning with the initial written records of Guam by members of Magellan 1521 expedition and concluding with the impact of the recent global recession on Guam's fragile economy.

The Power of Your Subconscious  
Mind, Revised Edition

*Bnpublishing.Com* I have seen miracles happen to men and women in all walks of life all over the world. Miracles will happen to you, too-when you begin using the magic power of your subconscious mind. This book is designed to teach you that your habitual thinking and imagery mold, fashion, and create your destiny; for as a man thinketh in his subconscious mind, so is he. Why is one man sad and another man happy? Why is one man joyous and prosperous and another man poor and miserable? Why is one man fearful and anxious and another full of faith and confidence? Why does one man have a beautiful, luxurious home while another man lives out a meager existence in a slum? Why is one man a great success and another an abject failure? Why is one speaker outstanding and immensely popular and another mediocre and unpopular? Why is one man a genius in his work or profession while the other man toils and moils all his life without doing

or accomplishing anything worthwhile? Why is one man healed of a so-called incurable disease and another isn't? Why is it so many good, kind religious people suffer the tortures of the damned in their mind and body? Why is it many immoral and irreligious people succeed and prosper and enjoy radiant health? Why is one woman happily married and her sister very unhappy and frustrated? Is there an answer to these questions in the workings of your conscious and subconscious minds? There most certainly is. It is for the express purpose of answering and clarifying the above questions and many others of a similar nature that motivated me to write this book.

## Manifest Destiny's Underworld

## Filibustering in Antebellum America

*Univ of North Carolina Press* This fascinating study sheds new light on antebellum America's notorious "filibusters--the freebooters and adventurers who organized or participated in armed invasions of nations with whom the United States was formally at peace. Offering the first full-scale analysis of the filibustering movement, Robert May relates the often-tragic stories of illegal expeditions into Cuba, Mexico, Ecuador, Nicaragua, and other Latin American countries and details surprising numbers of aborted plots, as well. May investigates why thousands of men joined filibustering expeditions, how they were financed, and why the U.S. government had little success in curtailing them. Surveying antebellum popular media, he shows how the filibustering phenomenon infiltrated the American psyche in newspapers, theater, music, advertising, and literature. Condemned abroad as pirates, frequently in language strikingly similar to modern American denunciations of foreign terrorists, the filibusters were often celebrated at home as heroes who epitomized the spirit of Manifest Destiny. May concludes by exploring the national consequences of filibustering, arguing that the practice inflicted lasting damage on U.S. relations with foreign countries and contributed to the North-South division over slavery that culminated in the Civil War.

Searching for the New Black Man

Black Masculinity and Women's  
Bodies

*Univ. Press of Mississippi* **Using the slave narratives of Henry Bibb and Frederick Douglass, as well as the work of W. E. B. Du Bois, James Baldwin, Walter Mosley, and Barack Obama, Ronda C. Henry Anthony examines how women's bodies are used in African American literature to fund the production of black masculine ideality and power. In tracing representations of ideal black masculinities and femininities, Henry Anthony shows how black men's struggles for gendered agency are inextricably bound up with their complicated relation to white men and normative masculinity. The historical context in which Henry Anthony couches these struggles highlights the extent to which shifting socioeconomic circumstances dictate the ideological, cultural, and emotional terms upon which black men conceptualize identity. Yet, Henry Anthony quickly moves to texts that challenge traditional constructions of black masculinity. In these texts Henry Anthony traces how the emergence of collaboratively-gendered discourses, or a blending of black female/male feminist consciousnesses, are reshaping black masculinities, femininities, and intraracial relations for a new century.**

# Possessing Your Inheritance

## Take Hold of God's Destiny for Your Life

*Chosen Books* Inheritance means taking hold of the portion God has planned for you. Jesus said, "I have come that they may have life, and that they may have it more abundantly" (John 10:10), demonstrating God's longing for His people to prosper, to accomplish all He has planned for them. He wants to take them from a place of judgment, desolation, and fruitlessness to a place of restoration, hope, and abundant life. In this revised and updated edition of *Possessing Your Inheritance*, prophetic intercessor Chuck Pierce, with coauthor Rebecca Wagner Sytsema, shows readers how to embrace what God has destined for them, for their children, and their children's children.

## Fate and Destiny

## The Two Agreements of the Soul

*Greenfire Press* Drawing on the experiences of his life, traditional wisdom stories, poetic and metaphoric language, etymology, and his personal brand of scholarship, Michael Meade leads us to an undeniable truth: that the only story we came here to live is our own. Often called "an instant classic," in this newly revised and expanded edition of *Fate and Destiny*, Meade has taken his original message of the uniqueness of each life to new levels of meaning and inspiration. By elaborating key themes and polishing the gems of wisdom, Meade gives us an even more powerful opportunity to change ourselves and the world. Meade shows how the limitations of family and fate form the inner threads from which our individual destiny must emerge. He explains how our wounds can become doorways to our deepest gifts and how our greatest obstacles are intended to lead us to a treasure divinely seeded within us before birth. Amidst the current turmoil of the world, *Fate and Destiny* speaks directly to young people seeking to find a genuine path in life and trying to awaken to the dream they carry inside. At the same time, stories of the elders help older people find new ways to value their lives and touch the threads of their own destiny. *Fate and Destiny* offers everyone penetrating insights for those caught in life's inevitable struggles and shows the wisdom of elders depends upon remembering the spirit of eternal youth.

# Destiny's Consul

## America's Greatest Presidents

*Rowman & Littlefield Publishers* In **Destiny's Consul: America's Greatest Presidents**, presidential scholar Michael P. Riccards provides a concise introduction to the lives, presidencies, and personal qualities of ten great individuals whom Riccards argues are our greatest presidents. It will be of interest to anyone interested in the presidency of American history.

## Dante's Vita Nuova, New Edition

## A Translation and an Essay

*Indiana University Press* "A fresh, new version of a 1962 translation that has had enormous popularity in comparative literature classes. The *Vita Nuova* (the New Life) is a small book which relates in prose and often very beautiful verse the story of the youthful Dante's love for Beatrice. The essay which follows the translation provides new insights into this puzzling thirteenth-century work. Musa regards Dante's intention in this so-called "Book of Memory" as a cruel and comic commentary on the youthful lover. He argues that Dante, using the tradition of love poetry current in his time, points up the foolishness and shallowness of his protagonist, a self-centered and self-pitying youth who only occasionally in the progress of his suffering catches even a glimpse of the true nature of Love or his beloved. "The sensitive man who would realize a man's destiny must ruthlessly cut out of his heart the canker at its center [i.e. self-pity], the canker that the heart instinctively tends to cultivate." According to Musa, this is one of Dante's central ideas. Dante scholars, libraries, and students of the Italian classics will welcome this distinguished translation and its provocative commentary"--Back cover.

Thinking and Destiny

With a Brief Account of the Descent of Man Into the Human World, And, How He Will Return to the Eternal Order of Progression

**In Thinking and Destiny, something new, although older than time, is now made known to the world--about Consciousness. The information is largely about the makeup of the human, where man comes from, what becomes of him; it explains what thinking is; it tells how a thought is created, and how thoughts are exteriorized into acts, objects and events, and how they make**

his destiny. Destiny is thus shown to be self-determined by thinking; and the process of re-existence and the after-death states are told in detail. A single reading of any one chapter of *Thinking and Destiny* brings rich rewards in new understanding of life`s puzzling mysteries. To read the entire book is to come nearer to knowledge of one`s destiny and how to shape it than is possible through study of anything previously written in the English language. Both the casually curious glancer at books and the most avid seeker for knowledge will be intrigued by the index, which lists more than 400 subjects in *Thinking and Destiny*, and by the fifteen chapter headings in the Table of Contents, which identify the 156 sections. The Foreword contains the only pages in which Mr. Percival uses the first personal pronoun. Here he relates some of the amazing experiences through which he was able to grasp the knowledge he transmits, and to acquire the ability to do so.
