Raising a Son Parents and the Making of a Healthy Man *Celestial Arts* **One of the few parenting books that husbands steal from their wives, this is the straightforward, easy-to-read family bookshelf standard. The Eliums continue to chart new territory with this new, updated, expanded and revised edition. Look for discussions on boys and ADD, the maturing relationship between mothers and sons, an index for quick reference, and more. What Kids Need to Succeed Proven, Practical Ways to Raise Good Kids (Revised & Updated 3rd Edition) Free Spirit Publishing** Researchers at Minneapolis-based Search Institute have identified 40 Developmental Assets that all kids need in their lives—good things like family support, a caring neighborhood, and resistance skills. Communities across the nation have embraced the book’s quick-read, commonsense suggestions for helping kids lead healthy, productive, positive lives and stay out of trouble. This revised and updated third edition draws on findings from a 2010 survey of about 90,000 kids (grades 6–12) from communities across the United States. The new data confirms the power of Developmental Assets in young people’s lives, reflecting updated levels of assets young people experience as well as the power that assets have to prevent high-risk behaviors and increase thriving behaviors. **Eco-man New Perspectives on Masculinity and Nature** *University of Virginia Press* The paradoxical role nature plays in American myth and history grows in part from the male’s reverent fascination with the wilderness and his equally strong impulse to dominate it. Many canonical literary works—think of Thoreau, Melville, Hemingway, Faulkner—look to the wild as the site for establishing a man’s selfhood. But nature is just as often subjected to his most violent displays of mastery. This tension lies at the heart of Eco-Man, which brings together two rapidly

growing fields: men's studies and ecocriticism. The two disciplines have rarely if ever touched on each other; brought together, men's studies is freed from its typical limitation of an exclusively urban-centered perspective, while ecocriticism engages an "ecomasculine" lens through which to view the field. The book's contents are diverse, but the contributors all challenge our idea of masculinity as merely the social code of patriarchy. By complicating our cultural notions of nature and masculinity, the volume's twenty essays question whether we can construct a notion of manhood around ecological principles and practices—and if so, what this would look like, and how it would enrich men's studies. The varied assembly of contributors to *Eco-Man*—including historians, philosophers, poets, both male and female—have all written with the general reader in mind. The result is a book as approachable as it is groundbreaking. Contributors: John Tallmadge * Gretchen Legler * Mark Allister * Scott Russell Sanders * Thomas R. From Boys to Men A Woman's Guide to the Health of Husbands, Partners, Sons, Fathers, and Brothers Simon and Schuster A guide for women on male health addresses such topics as the biological needs of growing boys, the major causes of disease, preventative care, the impact of emotional challenges on male health, and the longevity gap between men and women. 75,000 first printing. It Takes a Child to Raise a Parent Stories of Evolving Child and Parent Development Rowman & Littlefield Publishers While parents prepare for the birth of their children with trips to the doctor and birthing classes, parenthood itself requires on the job training. Here, Johnston invites parents to explore their own childhood experiences and memories in order to better understand the parenting challenges they face daily, and to accept that children raise parents as much as parents raise children. With tips, stories, and exercises, she guides parents through the various developmental stages of their children, and illustrates how we can make each moment count, one interaction at a time. Tommyland Simon and Schuster I am Tommy Lee, born Thomas Lee Bass in Athens, Greece, on October 3, 1962, and raised in a suburb of California by an American father and a Greek mother. At seventeen, I joined Mötley Crüe and we became one of the baddest-ass rock bands in history. We sold over 40 million albums, we wreaked havoc, we scared parents, and we titillated too many fathers' daughters. I've been married three times: once for just a few days to a Penthouse Pet, for seven years to Heather Locklear, and then for five years to Pamela Anderson, with whom I have two beautiful sons. I've gotten into a lot of fights and I've been to jail a few times. But this book isn't your typical journey in a straight line from day one to day now. I'm more interested in revealing what's most important about my life, like how I cook my steaks; what I think of the tabloids, the truth, my ex-wives, my ex-band, my music; and

what an innocent observer might find hanging around my house any given Sunday. You'll get plenty of facts and I'll tell you a story, but my real mission here is to paint you a picture of my life. I want to show you how my memories smell. I'd like to get into it now, so please take your seats. I advise you to keep your arms and legs inside the car at all times. If you have a pacemaker, a heart condition, or if you are pregnant or too damn short to reach the safety bar, I ask that you turn back immediately. Those with weak stomachs, strict morals, or chronic indigestion should put the book down now. For the rest of you, there's one truth that's real across the board: What you send out is what you get back. Send out the good, people, and it will come back to you. There's another thing I've learned over the years, in court, in fights, and in arguments with people I love: There isn't one truth, there are many. This book is my truth. **NOTE: THE EBOOK DOES NOT INCLUDE PHOTOGRAPHS THAT APPEAR IN THE PRINT EDITIONS.**
