The Go-Go's became the first multi-platinum-selling, all-female band to play instruments themselves, write their own songs, and have a number one album. Their debut, *Beauty and the Beat*, spent six weeks at the top of the Billboard 200 and featured the hit songs "We Got the Beat" and "Our Lips Are Sealed." The record's success brought the pressures of a relentless workload and schedule culminating in a wild, hazy, substance-fueled tour that took the band from the club circuit to arenas, where fans, promoters, and crew were more than ready to keep the party going. For Valentine, the band's success was the fulfillment of a lifelong dream—but it's only part of her story. *All I Ever Wanted* traces the path that took her from her childhood in Texas—where she all but raised herself—to the height of rock 'n' roll

stardom, devastation after the collapse of the band that had come to define her, and the quest to regain her sense of self after its end. Valentine also speaks candidly about the lasting effects of parental betrayal, abortion, rape, and her struggles with drugs and alcohol—and the music that saved her every step of the way. Populated with vivid portraits of Valentine’s interactions during the 1980s with musicians and actors from the Police and Rod Stewart to John Belushi and Rob Lowe, *All I Ever Wanted* is a deeply personal reflection on a life spent in music. **The Brain That Changes Itself Stories of Personal Triumph from the Frontiers of Brain Science Penguin UK** An introduction to the science of neuroplasticity recounts the case stories of patients with mental limitations or brain damage whose seemingly unalterable conditions were improved through treatments that involved the thought re-alteration of brain structure. **Out of My Mind Simon and Schuster** Considered by many to be mentally retarded, a brilliant, impatient fifth-grader with cerebral palsy discovers a technological device that will allow her to speak for the first time. **Teacher The Anatomy Coloring Book Benjamin-Cummings Publishing Company** Includes bibliographical references and index **The Digestive System Greenwood** Examines the role and function of the digestive system, including the esophagus, stomach, and small intestine. **A Magical Muddle Twinkl** Tabitha is worried about a special visitor coming to her school. “She wanted to impress the Head Witch but sometimes, her spells went wrong.” When Tabitha comes up with a brainy idea, will she dazzle or disappoint?
