MEDIUM/HEAVY TRUCK WHEEL SEPARATIONS

In the fall of 1991, a series of five truck-wheel runoff accidents occurred in which a total of seven people died. The seemingly high incidence of similar fatal accidents aroused public and Congressional concern about the potential magnitude of the wheel-separation problem. In November 1991, the Safety Board initiated a special investigation to determine the magnitude of the wheel-separation problem, the types and causes of failures, and the adequacy of current truck wheel inspection and maintenance guidance and procedures. The Federal Highway Administration's Office of Motor Carriers and the National Highway Traffic Safety Administration assisted the Safety Board in the review of accident and inspection records. As a result of this special investigation, the National Transportation Safety Board made recommendations to the Department of Transportation, the Federal Highway Administration, and the American Trucking Associations.

TRUCKIN' UP!

Four Pawns Publishing Donna Carver gives us a funny and interesting look at the trucking industry and the trucker's CB radio slang. From the passenger seat of a 'sure enough store bought large car', she's 'stylin and profilin', checking out the 'seat covers', and watching the 'bushes for bears' as she gets the ride of her life. Ride with Donna as she shares her stories from the road. Sometimes funny and some sad, like when she sees New York after 9/11.
