Haunted Houses

Two Novels

From the once-popular yet unfairly neglected Victorian writer Charlotte Riddell comes a pair of novels which cleverly upholster the familiar furniture of the haunted house story. In An Uninhabited House, the hauntings are seen through the perspective of the solicitors who hold the deed of the property. Here we find a shrewd, comedic skewering of this host of scriveners and clerks, and a realist approach to the consequences of a haunted house. How does one rent out such a property? Slowly the safer world of commerce and law gives way as the encounter with the supernatural entity becomes more and more unavoidable. In Fairy Water, Riddell again subverts the expectations of the reader, suggesting a complex moral character for her haunting spirit. Her writing style is succinct and witty, rendering the story a spirited and approachable read despite its age.

The Grownup

Hachette UK A young woman is making a living faking it as a cut-price psychic (with some illegal soft-core sex work on the side). She makes a decent wage mostly by telling people what they want to hear. But then she meets Susan Burke. Susan moved to the city one year ago with her husband and 15-year-old stepson Miles. They live in a Victorian house called Carterhook Manor. Susan has become convinced that some malevolent spirit is inhabiting their home. The young woman doesn't believe in exorcism or the supernatural.

However when she enters the house for the first time, she begins to feel it too, as if the very house is watching her, waiting, biding its time . . . The Grownup, which originally appeared as 'What Do You Do?' in George R. R. Martin's Rogues short story anthology, proves once again that Gillian Flynn is one of the world's most original and skilled voices in fiction.

Twenty-Five Ghost Stories

Popular Books by W. BOB HOLLAND : All times Bestseller Demanding Books

BEYOND BOOKS HUB Twenty-Five Ghost Stories BY W. BOB HOLLAND This collection of ghost stories owes its publication to an interest that I have long felt in the supernatural and in works of the imagination. As a child I was deeply concerned in tales of spooks, haunted houses, wraiths and specters and stories of weird experiences, clanking chains, ghostly sights and gruesome sounds always held me spellbound and breathless. Experiences in editorial offices taught me that I was not alone in liking stories of mystery. The desire to know something of that existence that is veiled by Death is equally potent in old age and in youth, and men, women and children like to be thrilled and to have a "creepy" feeling along the spinal column as the result of reading of a visitor from beyond the grave. This volume contains the most famous of the weird stories of Edgar Allan Poe, that master of this form of literature. "The Black Cat" contains all the needed element of mystery and supernatural, and yet the feline acts in a natural manner all of the time, and the story is quite possibly true. It is only in the manner of its{6} telling that the tale becomes one that fittingly finds its place in this collection. Guy de Maupassant, the clever Frenchman, is also represented by two effective bits of work, and other less widely known writers have also contributed stories that are worth reading, and when once read will be remembered. There is not a story among the twenty-five that is not worthy of close reading. There has recently been a revival in interest in ghost stories. Many of the high-class magazines have within a few months printed stories with supernatural incidents, and writers whose names are known to all who read have turned their attention to this form of literature. Whether or not the reader believe in ghosts, he cannot fail to be interested in this little book. Without venturing to express a positive opinion either way, I will only say with Hamlet: "There are more things in heaven and earth, Horatio, than are dreamt of in your philosophy." Twenty-Five Ghost Stories BY W. BOB HOLLAND

The Fall

Harper Collins Madeline Usher has been buried alive. The doomed heroine comes to the fore in this eerie reimagining of Edgar Allan Poe's classic short story "The Fall of the House of Usher." Gothic, moody, and suspenseful from beginning to end, The Fall is literary horror for fans of Miss Peregrine's Home for Peculiar Children and Asylum. Madeline awakes in a coffin. And she was put there by her own twin brother. But how did it come to this? In short, non-chronological chapters, Bethany Griffin masterfully spins a haunting and powerful tale of this tragic heroine and the curse on the Usher family. The house itself is alive, and it will never let Madeline escape, driving her to madness just as it has all of her ancestors. But she won't let it have her brother, Roderick. She'll do everything in her power to save him—and try to save herself—even if it means bringing the house down around them. With a sinister, gothic atmosphere and relentless tension to rival Poe himself, Bethany Griffin creates a house of horrors and introduces a whole new point of view on a timeless classic. Kirkus Reviews praised it in a starred review as "A standout take on the classic haunted-house tale replete with surprises around every shadowy corner."

Nineteen Eighty-Four

epubli "Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

To the Lighthouse

Renard Press Ltd [Described by Virginia Woolf herself as 'easily the best of my books', and by her husband Leonard as a 'masterpiece', To the Lighthouse, first published in 1927, is one of the milestones of Modernism. Set on the Isle of Skye, over a decade spanning the First World War, the narrative centres on the Ramsay family, and is framed by Mrs Ramsay's promise to take a trip to the lighthouse the next day - a promise which isn't to be fulfilled for a decade. Flowing from character to character and from year to year, the novel paints a moving portrait of love, loss and perception. Bearing all the hallmarks of Woolf's prose, with her delicate handling of the complexities of human relationships, To the Lighthouse has earned its reputation - frequently appearing in lists of the best novels of the twentieth century, it has lost not an iota of brilliance.](#)

In the Realm of Hungry Ghosts

Close Encounters with Addiction

Knopf Canada [In this timely and profoundly original new book, bestselling writer and physician Gabor Maté looks at the epidemic of addictions in our society, tells us why we are so prone to them and what is needed to liberate ourselves from their hold on our emotions and behaviours. For over seven years Gabor Maté has been the staff physician at the Portland Hotel, a residence and harm reduction facility in Vancouver's Downtown Eastside. His patients are challenged by life-threatening drug addictions, mental illness, Hepatitis C or HIV and, in many cases, all four. But if Dr. Maté's patients are at the far end of the spectrum, there are many others among us who are also struggling with addictions. Drugs, alcohol, tobacco, work, food, sex, gambling and excessive inappropriate](#)

spending: what is amiss with our lives that we seek such self-destructive ways to comfort ourselves? And why is it so difficult to stop these habits, even as they threaten our health, jeopardize our relationships and corrode our lives? Beginning with a dramatically close view of his drug addicted patients, Dr. Maté looks at his own history of compulsive behaviour. He weaves the stories of real people who have struggled with addiction with the latest research on addiction and the brain. Providing a bold synthesis of clinical experience, insight and cutting edge scientific findings, Dr. Maté sheds light on this most puzzling of human frailties. He proposes a compassionate approach to helping drug addicts and, for the many behaviour addicts among us, to addressing the void addiction is meant to fill. I believe there is one addiction process, whether it manifests in the lethal substance dependencies of my Downtown Eastside patients, the frantic self-soothing of overeaters or shopaholics, the obsessions of gamblers, sexaholics and compulsive internet users, or in the socially acceptable and even admired behaviours of the workaholic. Drug addicts are often dismissed and discounted as unworthy of empathy and respect. In telling their stories my intent is to help their voices to be heard and to shed light on the origins and nature of their ill-fated struggle to overcome suffering through substance use. Both in their flaws and their virtues they share much in common with the society that ostracizes them. If they have chosen a path to nowhere, they still have much to teach the rest of us. In the dark mirror of their lives we can trace outlines of our own. —from *In the Realm of Hungry Ghosts*

The Teltale Lilac Bush and Other West Virginia Ghost Tales

University Press of Kentucky " West Virginia boasts an unusually rich heritage of ghost tales. Originally West Virginians told these hundred stories not for idle amusement but to report supernatural experiences that defied ordinary human explanation. From jealous rivals and ghostly children to murdered kinsmen and omens of death, these tales reflect the inner lives—the hopes, beliefs, and fears—of a people. Like all folklore, these tales reveal much of the history of the region: its isolation and violence, the passions and bloodshed of the Civil War era, the hardships of miners and railroad laborers, and the lingering vitality of Old World traditions.

The Count of Monte Cristo

BookRix The Count of Monte Cristo is an adventure novel by French author Alexandre Dumas. It is one of the author's most popular works, along with The Three Musketeers. Like many of his novels, it is expanded from plot outlines suggested by his collaborating ghostwriter Auguste Maquet. The story takes place in France, Italy and islands in the Mediterranean during the historical events of 1815-1838. It begins from just before the Hundred Days period (when Napoleon returned to power after his exile) and spans through to the reign of Louis-Philippe of France. The historical setting is a fundamental element of the book. An adventure story primarily concerned with themes of hope, justice, vengeance, mercy and forgiveness, it focuses on a man who is wrongfully imprisoned, escapes from jail, acquires a fortune and sets about getting revenge on those responsible for his imprisonment. However, his plans have devastating consequences for the innocent as well as the guilty. In addition, it is a story that involves romance, loyalty, betrayal and selfishness, shown throughout the story as characters slowly reveal their true inner nature. The book is considered a literary classic today. According to Luc Sante, "The Count of Monte Cristo has become a fixture of Western civilization's literature, as inescapable and immediately identifiable as Mickey Mouse, Noah's flood, and the story of Little Red Riding Hood."

The Nuts and Bolts of Arabic-English Translation

An Introduction to Applied Contrastive Linguistics

Cambridge Scholars Publishing This book is aimed primarily at undergraduate and postgraduate students of translation and contrastive linguistics across the world, as well as their instructors. It does not confine itself to showing the differences between Arabic and English in terms of traditional grammar alone, but gently extends to the discussion of such issues as functional grammar, syntax, cohesion, semantics, pragmatics, cognitive linguistics, stylistics, text-typology, translation procedures, and, to a certain degree, translation theories. It will serve to develop a professional translation competence in all essential areas in students and trainees by providing a suitably wide range of bidirectional practice materials for them and their teachers. Such competence will be developed from the basis of a contrastive study of Arabic and English, and will embrace not just contrasting grammar, but also such matters as awareness of collocations, stylistics and cohesive devices and the identification of text types.

Penguin UK 'Imaginative, illuminating and innovative' The New York Times Book Review The grisly spectacle of public executions and torture of centuries ago has been replaced by the penal system in western society - but has anything really changed? Haunted

Random House Haunted is a novel made up of stories: twenty-three of the most horrifying, hilarious, mind-blowing, stomach-churning tales you'll ever encounter. They are told by the people who have all answered an ad headlined 'Artists Retreat: Abandon your life for three months'. They are led to believe that here they will leave behind all the distractions of 'real life' that are keeping them from creating the masterpiece that is in them. But 'here' turns out to be a cavernous and ornate old theatre where they are utterly isolated from the outside world - and where heat and power and, most importantly, food are in increasingly short supply. And the more desperate the circumstances become, the more desperate the stories they tell - and the more devious their machinations to make themselves the hero of the inevitable play/movie/non-fiction blockbuster that will certainly be made from their plight.

Madness and Civilization

A History of Insanity in the Age of Reason

Vintage Michel Foucault examines the archeology of madness in the West from 1500 to 1800 - from the late Middle Ages, when insanity was still considered part of everyday life and fools and lunatics walked the streets freely, to the time when such people began to be considered a threat, asylums were first built, and walls were erected between the "insane" and the rest of humanity.
