GEF Country Portfolio Evaluation The Philippines (1992-2007) *GEF Evaluation Office Challenges and Opportunities in Regional Governance of Ocean Ecosystems* *Frontiers Media SA* **Climate Change and Developing Countries** *Springer Science & Business Media* **Among global environmental issues, climate change has received the largest attention of national and global policy makers, researchers, industry, multilateral banks and NGOs. Climate change is one of the most important global environmental problems with unique characteristics. It is global, long-term (up to several centuries) and involves complex interactions between climatic, environmental, economic, political, institutional and technological pressures. It is of great significance to developing countries as all the available knowledge suggests that they, and particularly their poorer inhabitants, are highly vulnerable to climate impacts. The projected warming of 1.4 to 5.8° C by 2100 and the related changes in rainfall pattern, rise in sea-level and increased frequency of extreme events (such as drought, hurricanes and storms) are likely to threaten food security, increase fresh water scarcity, lead to decline in biodiversity, increase occurrence of vector-borne diseases, cause flooding of coastal settlements, etc. Recognizing the potential threat of severe disruptions, the United Nations Conference on Environment and Development was organized in 1992 in Rio de Janeiro, Brazil to begin to address ways to reduce these impacts, which led to the formulation of the UN Framework Convention on Climate Change. This Convention and the subsequent Kyoto Protocol recognize "the common but differentiated responsibility" of developing and industrialized countries in addressing climate change. Developing countries thus have a unique role to play in formulating a sound, reasoned, and well informed response to the threat of climate change.** *FastLane Managing Science in the Internet World* *JHU Press* **Since 2000, the National Science Foundation has depended upon its pioneering FastLane e-government system to manage grant applications, peer reviews, and reporting. In this behind-the-scenes account Thomas J. Misa and Jeffrey R. Yost examine how powerful forces of science and computing came together to create this influential grant-management system, assessing its impact on cutting-edge scientific research. Why did the NSF create FastLane, and how did it anticipate the development of web-based e-commerce? What technical challenges did the glitch-prone early system present? Did the switch to electronic grant proposals disadvantage universities with fewer resources? And how did the scientific community help shape FastLane? Foregrounding the experience of computer users, the book draws on hundreds of interviews with scientific researchers, sponsored project administrators, NSF staff, and software designers, developers, and managers.** *Project Life Cycle Economics Cost Estimation, Management and Effectiveness in Construction Projects* *Routledge* **The financing of modern construction projects reflects the need to address the costs and benefits of the whole life of the project. This means that end of life economics can now have a far greater impact on the planning and feasibility phases. During the project itself, decisions on construction materials and processes all influence the schedule as well as both immediate and down-the-line costs. Massimo Pica and his co-authors explain in detail the fundamentals of project life cycle economics and how they apply in the context of complex modern construction. This is an essential guide for those involved in construction project design, tendering and contracting; to help ensure the sustainability of the project or their contribution to it, from the start. It is also important for those involved in the delivery of the project to help them make the choices to keep the project on a financial even keel. Government, corporations and other organizations are looking for new models of collaborative working to fund their large construction and infrastructure projects in the face of changing attitudes to risk; a better educated and more demanding base of end-user clients and the increasing requirements for projects that are environmentally responsible and sustainable. Project Life Cycle Economics is a fundamental primer for those commissioning and those delivering construction.** *Understanding Project Management, Second Edition A Practical Guide* *Canadian Scholars' Press* **In the second edition of Understanding Project Management, skilled expert Dave C. Barrett offers a well-updated, practical real-world guide for current and aspiring project managers. Using concise and approachable language, the second edition features new concept illustrations, a greater consistency with the Project Management Body of Knowledge terminology, and additional case studies in the updated instructor resources. Taking the reader through an ongoing case study from initiation to completion, the text reinforces the importance of managing key aspects of a project, including its scope, quality, schedule, and budget, and explores the less tangible challenges that can often derail a project or lead to its success. This newly updated edition offers authentic project management documents produced alongside the project case study and equips readers with a solid understanding of why specific processes are used, why certain decisions are made, and how pieces of project management fit together. Suitable for any discipline or industry, Understanding Project Management, Second Edition, promises to be an engaging and worthwhile read.** **FEATURES:** - Additional key terms, illustrations, practical examples, and references to the Project Management Body of Knowledge, Sixth Edition - Readers follow an ongoing case study, gaining insight into the thought processes and resulting actions of a project manager, including the creation of project documents - Robust instructor resources include new case studies that can be used for in-class activities and case study extensions of additional situations and problems to discuss with students *International Government Information and Country Information A Subject Guide*

Greenwood Publishing Group Readers will find essential but hard-to-find resources from a large array of international intergovernmental organizations, along with tips and research strategies. *Partnerships for Sustainability in Contemporary Global Governance Pathways to Effectiveness* *Taylor & Francis* *Partnerships for Sustainability in Contemporary Global Governance* investigates the goals, ideals, and realities of sustainability partnerships and offers a theoretical framework to help disentangle the multiple and interrelated pathways that shape their effectiveness. Partnerships are ubiquitous in research and policy discussions about sustainability and are important governance instruments for the provision of public goods. While partnerships promise a great deal, there is little clarity as to what they deliver. If partnerships are to break free from this paradox, more nuance and rigor are required for understanding and assessing their actual effects. This volume applies its original framework to diverse empirical cases in a way that could be extended to broader data sets and case studies of partnerships. The dual contribution of this volume, theoretical and empirical, holds promise for a more thorough and innovative understanding of the pathways to partnership effectiveness and the conditions that can shape their performance. The broad range of crosscutting analyses suggest important practical implications for the design of new partnerships and the updating of existing initiatives. This interdisciplinary book will be of great interest to researchers, students, and practitioners within international relations, political science, sociology, environmental studies and global studies, as well as the growing number of scholars in public policy, global health and organizational and business studies who are keen to gain a deeper understanding of the pathways and mechanisms that influence the outcomes and effectiveness of cross-sector collaboration and transnational governance more broadly.

Alternative Development Paths scope for mobilizing international resources for funding the power sector in India *The Energy and Resources Institute (TERI)* India has emerged as a rapidly developing economy in the 21st century. However, to support this growth, India needs to modernize its electricity sector and increase its generating capacity in the coming years. This calls for substantial investment in the sector over the next few decades. The investments must be economically, socially, and culturally consistent with the needs of India. Such investments in the energy sector being long term in nature, appropriate choices must also be made from the perspective of technology and environment This publication focuses on various 'alternatives in development' to ensure future sustainability of India's electricity industry and generate policy options for both developing the power sector and mobilizing foreign resources. It also looks at the critical issue of how India can develop required institutional framework that can promote the modernization of the electricity sector by encouraging endogenous and exogenous sources of funding into specific areas, issues related to technology transfer and sustainable development, the role of donor agencies and climate change funds, etc. A three-pronged research strategy was adopted to untangle the issues facing the electricity sector in India. First, the research team carried out a literature survey covering scientific literature, reports, and policy documents. Second, it studied country-specific cases to understand the lessons learnt from specific outcomes of the work done by other countries. And third, the team interviewed various stakeholders from the private sector, government, multilateral institutions, non-governmental organizations, and academic community. The information thus gathered was finally synthesized and a SWOT (strengths, weaknesses, opportunities, and threats) analysis was carried out. This publication, titled *Alternate development paths: scope for mobilizing international resources for funding the power sector in India*, will be useful to policy-makers, financial analysts, academics, decision-makers in international development agencies, and those interested in India's power sector.

ASFA Advisory Board Meeting, UMT, Terengganu, Malaysia, 22-26 September 2019 Final report *Food & Agriculture Org.* The 47th bi-annual Meeting of the Aquatic Sciences and Fisheries Abstracts (ASFA) Advisory Board was hosted by the University of Malaysia Terengganu and took place from 22 to 26 September 2019 in Terengganu, Malaysia. The Meeting was attended by 34 participants from: 21 National ASFA Partners, 1 UN ASFA Partner, 2 International ASFA Partners, 2 Collaborating Centres and the ASFA Publishing Partner. This meeting was a key milestone in gearing the ASFA transition towards a new business model, with many changes already proceeding. Partners showed support for ASFA's future direction and plans, and committed to contributing their skills, expertise and time as far as their capacities allow. A number of major changes were approved by Partners, including a new Publishing Agreement and new FAO project to administer the ASFA Trust Fund. Overall, the progress made at the meeting ensures ASFA is on track to adopt its new Business Model by the end of its 50th Anniversary year (2021). This contains the Minutes of the meeting and the working documents (Annexes 1-19).

Joint Evaluation of the GEF Activity Cycle and Modalities *GEF Evaluation Office* *D.R.D.A. Reporter* *UM Libraries* *Humanistic Pedagogy Across the Disciplines Approaches to Mass Atrocity Education in the Community College Context* *Springer* This volume presents insights from five years of intensive Holocaust, genocide, and mass atrocity education at Queensborough Community College (QCC) of the City University of New York (CUNY), USA, to offer four approaches—Arts-Based, Textual, Outcomes-Based, and Social Justice—to designing innovative, integrative, and differentiated pedagogies for today's college students. The authors cover the theoretical foundations of each approach, and include faculty reflections on the programs, instructional strategies, and student reactions that brought the approaches to life across the disciplines.

Remote Sensing of Plant Biodiversity *Springer Nature* This Open Access volume aims to methodologically improve our understanding of biodiversity by linking disciplines that incorporate remote sensing, and uniting data and perspectives in the fields of biology, landscape ecology, and geography. The book provides a framework for how biodiversity can be detected and evaluated--focusing particularly on plants--using proximal and remotely sensed hyperspectral data and other tools such as LiDAR. The volume, whose chapters bring together a large cross-section of the biodiversity community engaged in these methods, attempts to establish a common language across disciplines for understanding and implementing remote sensing of biodiversity across scales. The first part of the book offers a potential basis for remote detection of biodiversity. An overview of the nature of biodiversity is described, along with ways for determining traits of plant biodiversity through spectral analyses across spatial scales and linking spectral data to the tree of life. The second part details what can be detected spectrally and remotely. Specific instrumentation and

technologies are described, as well as the technical challenges of detection and data synthesis, collection and processing. The third part discusses spatial resolution and integration across scales and ends with a vision for developing a global biodiversity monitoring system. Topics include spectral and functional variation across habitats and biomes, biodiversity variables for global scale assessment, and the prospects and pitfalls in remote sensing of biodiversity at the global scale. *GEF Country Portfolio Evaluation Samoa (1992-2007)* *GEF Evaluation Office* **Plant Genome Science From the Lab to the Field to the Market, Parts I-III : Hearings Before the Subcommittee on Basic Research of the Committee on Science, House of Representatives, One Hundred Sixth Congress, First Session, August 3, October 5, and October 19, 1999 Finding Funding Grantwriting From Start to Finish, Including Project Management and Internet Use** *Corwin Press* The fifth edition of this bestseller brings the reader up-to-date with newly researched Web sites and effective strategies for writing government, foundation, and private grants. **Federal Register Implementing National Qualifications Frameworks Across Five Continents** *Routledge* This book assesses the impact and implementation of national qualifications frameworks in sixteen different countries. It presents two major lessons for policy makers thinking of introducing a National Qualifications Framework (NQF). First, that an NQF is only a way of framing existing provision; it cannot on its own, lead to the acquisition of skills or knowledge. Second, as an attempt to standardize learning- something that is only to a limited extent standardizable, NQFs have disadvantages as well as advantages. The research was funded by the International Labour Organization (ILO) and the European Training Foundation (ETF) and, partly as a result of the ILO/ETF Report, the Editors were asked by the World Bank to help them in advising the government of India on introducing a NQF for vocational qualifications. Building on the findings of the report, the editors of this book presented an NQF implementation strategy to the Government of India on behalf of the World Bank. It laid out the steps and stages that would be involved and took account of the earlier experiences of introducing an NQF. Although this strategy was prepared specifically for the Government of India, others who have read it felt it deserved wider circulation. The report has therefore been included in this volume. Since this research was undertaken, the number countries, especially developing countries, implementing or introducing a NQF has continued to increase. This book will be of interest to policy makers and researchers. This book was originally published as a special issue of the *Journal of Education and Work*. **Catalog of Federal Domestic Assistance Identifies and describes specific government assistance opportunities such as loans, grants, counseling, and procurement contracts available under many agencies and programs.** **Beyond Paper The Official Guide to Adobe Acrobat** *Prentice Hall* Electronic publishing is quickly becoming one of the hottest technologies to emerge in the 1990s. Adobe Acrobat products make possible, for the first time, effective universal electronic document communication. **Beyond Paper is the definitive book on the new technology and is intended as a comprehensive overview.** **Medium-Sized Projects Evaluation** *GEF Evaluation Office* **Successful Project Management** *Cengage Learning* Master the skills and knowledge needed to work successfully in today's project management environment with Gido/Clements/Baker's **SUCCESSFUL PROJECT MANAGEMENT, 7E**. This best-selling book details how to organize and manage project teams -- from planning and scheduling to cost management. Each chapter aligns with PMBOK (Project Management Body of Knowledge) to ensure familiarity with today's best practices. Coverage of the latest business challenges addresses project constraints, stakeholder issues, the project charter, and how projects relate to the organization's strategic plan. Reader practice effective communication and examine how professionals apply project management in the workplace with new and revised cases and real-world vignettes. End-of-chapter practice and Internet exercises review the concepts most critical to project management success. Future and current professionals find the insights and specifics needed to manage projects most effectively in business today. **Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.** **Proceedings of IAC 2020 in Vienna** *Czech Institute of Academic Education* **VIRTUAL (Vienna, Austria), July 24 - 25, 2020 International Academic Conference on Teaching, Learning and E-learning International Academic Conference on Management, Economics and Marketing International Academic Conference on Engineering, Transport, IT and Artificial Intelligence Web-Based Education in the Human Services Models, Methods, and Best Practices** *Routledge* A much-needed look at innovative and effective methods for creating virtual learning environments for human services **Web-Based Education in the Human Services** reflects the vitality and diversity of Web-based courses currently delivered within human services. Unlike previous texts that have combined technologies such as Interactive Television (ITV) and two-way audio where Web involvement was minimal, this unique book focuses on Web-based models, tools, and techniques used in courses where the majority of the content is delivered online. The book's contributors emphasize the social aspects of learning, examining topical areas not usually associated with Web-based education as they remind us of the need to move beyond the similarities between WBE and face-to-face (FTF) approaches. **Web-Based Education in the Human Services** documents a course delivery method coming of age in its desire to create virtual learning environments that incorporate a variety of techniques and strategies. These environments use concepts and tools beyond what packages such as WebCT currently offer, highlighting the power of designing a complete Web-based curriculum, rather than viewing each course separately. Many of the most successful approaches presented in this invaluable book don't involve sophisticated tools or programming, but the creative design of interactive scenarios, emotional content, and feedback mechanisms that reinforce the instructor's role as the crucial ingredient for success. **Web-Based Education in the Human Services** examines: adult learning theories teaching practice skills through Web-based technology how to bridge the gap between theory and practice faculty perceptions of the effectiveness of Web-based instruction compared to face-to-face instruction the accessibility of Web-based education the significance of emotion in learning Web-based delivery of a graduate professional training program the creation, delivery, and evaluation of a pilot course using Blackboard 6™ the development of a Web-based undergraduate child welfare course the use of Web-based video clips for counselor skills training the design, development, pilot, and revision of a Web-based social work practice course an online format for agency-based field instruction the design of a Web-based graduate program in counseling psychology and much

more! **Web-Based Education in the Human Services** is an invaluable resource for social work and human services educators, including education, nursing, and psychology, Web-course developers, and college and university administrators. **National Science Foundation Fiscal Year 2000 Budget Request Hearing Before the Subcommittee on Basic Research of the Committee on Science, House of Representatives, One Hundred Sixth Congress, First Session, April 28, 1999 GAARs and Judicial Anti-Avoidance in Germany, the UK and the EU** Schriftenreihe IStR Band 98 *Linde Verlag GmbH* **GAARs: the better insight into a country's tax system** In a post-BEPS tax world and in times of an ever-increasing need for tax revenue, policy-makers are more willing than ever to tighten or adopt General Anti-Avoidance Rules (GAARs). A GAAR is typically a broad principle-based rule trying to establish the borderline between "abuse" and "use" of a law, thereby addressing the phenomenon that as long as there have been taxes, persons have been trying to reduce their tax bills. This award-winning book compares the GAARs and judicial anti-avoidance approaches of Germany, the UK and the EU. It gives a deep insight into the predominant legal traditions of the Western World, comprehensively analyses case-law and offers unique perspectives on tax law across jurisdictions. This book reveals that there is no other feature of tax law that provides a better insight into a country's tax system than its anti-avoidance rules. GAARs and their historical background reveal so much about judicial perspectives on taxation and legal interpretation, citizens' tax morale, drafters' inclinations for technical or principled drafting or legislators' willingness to confront politically sensitive issues. Understanding the role of GAARs ultimately also reveals whether they are a suitable means to counteract tax avoidance effectively. The Book is the winner of the Wolfgang Gassner-Wissenschaftspreis 2016! **Macromedia Sitespring for Windows and Macintosh Explains how to use Macromedia Sitespring to facilitate communication between members working on a team-based Web project, track client information and feedback, delegate tasks and reports, and manage message boards.** **Health and Safety Requirements in Construction Contract Documents** *AIHA* **A Practical Guide to Localization** *John Benjamins Publishing* **A Practical Guide to Localization** was written for technical translators, localization engineers, testing engineers, desktop publishers, project managers, and anyone else who may be involved in the release of multilingual products. In this second edition, translators can learn more about localizing software, online help and documentation files, and the latest translation technology tools. Localization engineers can learn all about developing, engineering, and testing multilingual software and online help projects. For project managers, there is all the information needed for planning translation and localization projects, finding resources, and ensuring product quality. New to this second, fully updated and revised edition are chapters on internationalization, multilingual desktop publishing, and software quality assurance. The book has been designed both as a reference work and a teaching tool. Visit the www.locguide.com web site for additions and updates to the book, as well as references and links relevant to technical translation and localization. The web site also contains extracts from the book, reviews, and ordering information. Bert Esselink has been active in localization for over a decade. After graduating in technical translation and taking university classes in programming and computational linguistics he worked for several years as software localizer, localization engineer, and technical project manager at International Software Products. In 1996 he joined ALPNET in Amsterdam as localization manager before taking on the role of globalization manager, developing internal production quality standards. In January 2000 Bert joined Lionbridge to head up their European globalization consulting services. **The Book Proposal Book A Guide for Scholarly Authors** *Princeton University Press* "The Book Proposal Book: A Guide for Scholarly Authors is not just a compendium of abstract advice; it's a structured program-complete with worksheets and concrete tasks-that takes readers through each step of researching and writing a proposal that will sell their book to an editor at a scholarly press. The handbook is premised on the fact that an effective proposal doesn't merely describe a book project-it makes an active case that the manuscript should exist in published form because it has the potential to reach and appeal to actual readers. The Book Proposal Book works though the implications of this premise, showing authors how a focus on audience and usability must inform every element of their pitch. Readers of this handbook will learn how to both write a complete book proposal and confidently navigate the scholarly publishing process from pitch to contract to publication. Moreover, they will gain invaluable insight into their own research and the message they want to share with the world"-- **Writing Proposals A Handbook of What Makes Your Project Right for Funding (Includes Proposal Template)** **Writing Proposals** aims at making it easier for your project to access a grant with two tools: industry best-practices and a field-tested proposal template. This book is mainly for projects that wish to access public grants and will give you: - A downloadable proposal template and budget sheet - An A-to-Z methodology to write your proposal and budget developed over 7 years of practice - In-depth explanations for each proposal section - Several examples of paragraph texts - 7 Writing techniques to make your project's case better - 26 Proposal-Specific writing tips **Proposal Writing** is a daunting task: we have to follow strict guidelines and a process we aren't familiar with. On top of that, we need to present our project in the best possible light, all within a very tight deadline. Doing everything, and doing it perfectly, is possible - but it requires time: time to read, to understand, to plan and to write. Time, unfortunately, is the resource we lack the most, and we might not be able to build the necessary expertise via practice. This is where I come in: I put my time in this book, so you don't have to waste yours. This book is a collection of the best, tools, tricks and techniques developed in 7+ years of grant writing. Every single tool or concept has been field tested and refined via trial and error. **Writing Proposals** is divided in three sections **SECTION 1** is an A-to-Z guide on how to write a proposal. It provides a workflow, a sample proposal structure, and a downloadable proposal template and budget sheet. Each one of its chapters provides a detailed explanation of the different building blocks: - **First Steps of Proposal Writing** - **Outline of the Technical Proposal** - **Introduction** - **Context and Proposal Structure** - **Methodology** - **Organisation and Staffing** - **Budget** - **Review and Finalization** **SECTION 2** focuses on **Writing Techniques for Proposals**, meaning what you can do to write your text better, faster and to make it more effective. Here, we go over 7 fundamental tools for better writing. **SECTION 3**, lastly, is a collection of 26 **Proposal-Specific Writing Tips**, that is a series of adjustments you can use in your text right away that make your document more readable and easier to

follow. At the end of the book you will find the proposal structure (for quick reference) and a methodology to calculate your personnel's hourly rate Building E-Community Centres for Rural Development Report of the Regional Workshop Academic Foundation Commerce Business Daily Attribution of Profits to Permanent Establishments Current Developments, Relevant Issues and Possible Solutions Linde Verlag GmbH Attribution of Profits to Permanent Establishments: Issues and Developments The profit attribution to permanent establishments is one of the most controversial topics in international tax law. In recent years it was subject to various changes based on the introduction of the "Authorized OECD Approach" in 2008 and 2010, the outcomes of Final Report on OECD BEPS Action 7 and the Final Report on "Additional Guidance on the Attribution of Profits to a Permanent Establishment under BEPS Action 7" from 2018 (with the previous Discussion-Drafts). This publication discusses the most important issues and recent developments related to the attribution of profits to permanent establishments. Starting with an in-depth analysis on the commonalities and differences between the profit attribution provisions in modern double tax treaties (ie Art 7 AOA vs Art 9 OECD/UN Models), it further deals with topics such as profit attribution to PEs and PE exemptions (Art 5 para 4), profit attribution to agency PEs (Art 5 para 5 and 6), and profit attribution to a "significant economic presence" and to market states. This book is based on the outcomes of the presentations and discussions held during the WU Transfer Pricing Symposium that took place in October 2019 at the WU Vienna University of Economics and Business. The authors, apart from providing a theoretical background to the discussed issues, also present case studies that show how certain issues can be approached in practice. Every chapter ends with a summary of the opinions on the issues at stake of representatives of tax administrations, multinationals and tax advisories, which completes this essential practical guideline. The New "public" The Globalization of Public Participation Environmental Law Institute The Green Book Appraisal and Evaluation in Central Government : Treasury Guidance Stationery Office This new edition incorporates revised guidance from H.M Treasury which is designed to promote efficient policy development and resource allocation across government through the use of a thorough, long-term and analytically robust approach to the appraisal and evaluation of public service projects before significant funds are committed. It is the first edition to have been aided by a consultation process in order to ensure the guidance is clearer and more closely tailored to suit the needs of users. Adobe Acrobat 9 PDF Bible John Wiley & Sons Evaluating Teacher Education Programs through Performance-Based Assessments IGI Global Performance-based assessments have become a critical component of every teacher education program. Such assessments allow teacher candidates to demonstrate their content and pedagogical knowledge, skills, and dispositions in an authentic setting. Evaluating Teacher Education Programs through Performance-Based Assessments analyzes and discusses the theory and concepts behind teacher education program evaluation using assessment tools such as lesson plans, classroom artifacts, student work examples, and video recordings of lessons. Emphasizing critical real-world examples and empirically-based studies, this research-based publication is an ideal reference source for university administrators, teacher educators, K-12 leaders, and graduate students in the field of education. American Recovery and Reinvestment Act Funds for the Bureau of Reclamation and the Water Resources Division of the United States Geological Survey (USGS) Oversight Hearing Before the Subcommittee on Water and Power of the Committee on Natural Resources, U.S. House of Representatives, One Hundred Eleventh Congress, First Session, Tuesday, April 28, 2009
