Wilson Literary Science Writing Award It is worse, much worse, than you think. The slowness of climate change is a fairy tale, perhaps as pernicious as the one that says it isn't happening at all, and if your anxiety about it is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible, even within the lifetime of a teenager today. Over the past decades, the term "Anthropocene" has climbed into the popular imagination - a name given to the geologic era we live in now, one defined by human intervention in the life of the planet. But however sanguine you might be about the proposition that we have ravaged the natural world, which we surely have, it is another thing entirely to consider the possibility that we have only provoked it, engineering first in ignorance and then in denial a climate system that will now go to war with us for many centuries, perhaps until it destroys us. In the meantime, it will remake us, transforming every aspect of the way we live-the planet no longer nurturing a dream of abundance, but a living nightmare. **The Art of Botanical & Bird Illustration An Artist's Guide to Drawing and Illustrating Realistic Flora, Fauna, and Botanical Scenes from Nature** [Walter Foster Jr](#) The Art of Botanical & Bird Illustration is a guide for contemporary artists aspiring to master shape, color, and texture and render beautiful, realistic, and vibrant botanical artwork! Midnight Sunburn is a light and reverent parody of that long-anticipated book. It gives a glimpse into what Midnight Sun might have been, with added gentle satire and wry humour. Midnight Sunburn shows the unfolding of Edward's fierce love for the mysteriously closed Bella Swan, explains how he overcomes his thirst for her blood, and reveals why he would rather watch her die than transform her into a vampire. Drawing on new anthropological theories of his time, Engels argued that matriarchal communal societies had been overthrown by class society and its emphasis on private, not communal, property and monogamous, rather than polygamous, sexual organization. This historical development, Engels argued, constituted "the world-historic defeat of the female sex." A masterclass in the application of materialist thought to history and anthropology, and touching on love, monogamy, property, and the development of the human,

this landmark work is still foundational in Marxist and socialist feminist theory. **Twilight: The Graphic Novel Collector's Edition** [Yen Press](#) When Isabella Swan moves to the gloomy town of Forks and meets the mysterious, alluring Edward Cullen, her life takes a thrilling and terrifying turn.
