DIGNITY

Createspace Independent Publishing Platform Looks can be deceiving. I knew that most people took one look at the ink and the impossibly big and strong body it covered and decided I was a brawler...a bruiser...a beast. However, I was hardwired to be a thinker, not a fighter. I should have chosen to use my brain and talents to be one of the good guys, a hero, a man with dignity and worth. I turned my back on dignity and sold my soul to the highest bidder, deciding to dance with the devil, instead. I couldn't figure out how to help myself, so there was zero chance I knew how to save someone else. That someone else was Noe Lee. She was the unkempt, unruly thief who was just as smart as I was and twice as street savvy. She was annoyingly adorable beneath the dirt and grime, and she was in trouble. In way over her head, I told myself it wasn't my job to keep her from drowning. In the Point, it was sink or swim, and I wasn't the designated lifeguard on duty. I shut the door in her face, but now she's gone...vanished...disappeared without a trace. It took less than a second for me to realize that I wanted her back. When a woman comes along that melts all the frozen, hard things you're made of; you'll do anything you have to, to bring her home. What you see is not always what you get...and with a man like me there is more than anyone ever bargained for.

CINEPOETRY: IMAGINARY CINEMAS IN FRENCH POETRY

Fordham University Press *Cinepoetry* analyzes how French poets have remapped poetry through the lens of cinema for more than a century. In showing how poets have drawn on mass culture, technology, and material images to incorporate the idea, technique, and experience of cinema into writing, Wall-Romana documents the long history of cross-media concepts and practices often thought to emerge with the digital. In showing the cinematic consciousness of Mallarmé and Breton and calling for a reappraisal of the influential poetry theory of the early filmmaker Jean Epstein, *Cinepoetry* reevaluates the bases of literary modernism. The book also explores the crucial link between trauma and trans-medium experiments in the wake of two world wars and highlights the marginal identity of cinepoets who were often Jewish, gay, foreign-born, or on the margins. What results is a broad rethinking of the relationship between film and literature. The episteme of cinema, the book demonstrates, reached the very core of its supposedly highbrow rival, while at the same time modern poetry cultivated the technocultural savvy that is found today in slams, e-poetry, and poetic-digital hybrids.

ALGERIAN SKETCHES

Polity In the late 1950s, like tens of thousands of young men of his generation, Pierre Bourdieu, having recently passed the agrégation in philosophy, found himself immersed in the Algerian war. Motivated by an impulse that, as he himself says, 'was civic rather than political', nothing seemed more important to him than to understand the Algerian situation and provide the elements that would

enable others to come to an informed judgement about it. In extremely tough conditions and along with a small group of students, Bourdieu undertook a series of studies across an Algeria that was tightly patrolled by the army, leading him to discover the shocking reality of the resettlement camps and to analyse the mechanisms of destruction of Algerian society of which they were emblematic. To achieve the objectives he had set himself, Bourdieu had to carry out a genuine intellectual conversion, acquiring an ethnographic understanding of Algerian society, learning sociological analysis at a breakneck pace and inventing new instruments - both theoretical and empirical - that would enable him to understand the relations of domination specific to colonialism. These new tools also enabled him to analyse the nature of the crisis that the war had both produced and manifested. This unique volume brings together the first texts written by Bourdieu in the midst of the Algerian conflict, as well as later writings and interviews in which he returns to the topic of Algeria and the decisive role it played in the development of his work.

TRANSMEDIAL NARRATOLOGY AND CONTEMPORARY MEDIA CULTURE

U of Nebraska Press Narratives are everywhere--and since a significant part of contemporary media culture is defined by narrative forms, media studies need a genuinely transmedial narratology. Against this background, Transmedial Narratology and Contemporary Media Culture focuses on the intersubjective construction of storyworlds as well as on prototypical forms of narratorial and subjective representation. This book provides not only a method for the analysis of salient transmedial strategies of narrative representation in contemporary films, comics, and video games but also a theoretical frame within which medium-specific approaches from literary and film narratology, from comics studies and game studies, and from various other strands of media and cultural studies may be applied to further our understanding of narratives across media.
