However all textbooks are region-specific despite this growing move towards global business relationships - except this one. This textbook takes a global viewpoint, with the help of an international author team and cases from across the globe. Other unique features of this insightful study include: placement of B2B in a strategic marketing setting; full discussion of strategy in a global setting including hypercompetition; full chapter on ethics and CSR early in the text; and detailed review of global B2B services marketing, trade shows, and market research. This new edition has been fully revised and updated with a full set of brand new case studies and features expanded sections on digital issues, CRM, and social media as well as personal selling. More selective, shorter, and easier to read than other B2B textbooks, this is ideal for introduction to B2B and shorter courses. Yet, it is comprehensive enough to cover all the aspects of B2B marketing any marketer needs, be they students or practitioners looking to improve their knowledge.

---

[SAGE](#) This textbook explores the reasons for intercultural differences and their effects on the behavior of individuals and organizations within the context of management. This makes intercultural management a fascinating and rewarding subject to study. Throughout, the author encourages an analytical approach to intercultural management built upon strong methodological foundations, and draws on examples from a wide range of different contexts and cultures to help reflectively translate research and concepts into practice in a way that is lively and engaging. This textbook is essential reading for students taking university courses related to intercultural management. Lecturers can visit the companion website to access a Teaching Guide and PowerPoint slides that can be adapted and edited to suit teaching needs.
