REVISTA DE ANTROPOLOGÍA SOCIAL

DISPUTAR LA CULTURA

ARTE Y TRANSFORMACIÓN SOCIAL

RGC Ediciones Las prácticas, experiencias y políticas arte-transformadoras están cada vez más presentes en el terreno de las políticas culturales. Ya sea en el marco de propuestas autogestivas en manos de colectivos artísticos o desde el ámbito de las políticas públicas, muchos artistas, gestores/as y trabajadores/as culturales trabajan para que el arte sea una herramienta/estrategia de disputa política por la ampliación de derechos. Este libro, organizado en ocho capítulos que atienden tanto problemáticas teórico-metodológicas como casos etnográficos específicos, pretende ser un aporte al reconocimiento y visibilización de las propuestas arte-transformadoras. Desde prácticas que se basan en el circo, el teatro comunitario, la danza, la fotografía o las orquestas juveniles se busca promover el acceso a la cultura y las artes, se cuestionan las jerarquizaciones canónicas de arte, se disputan los circuitos y protagonistas legítimos y hegemónicos de reproducción artística, se impugna el acceso desigual a los derechos culturales y se lucha por la implementación de políticas democráticas y participativas. Las autoras de este libro son: Julieta Infantino, Josefina Cingolani, Camila Mercado, Mariana Moyano, Verónica Talellis, Maia Berzel y Ana Echeverría.

LOS JÓVENES EN MÉXICO

Fondo de Cultura Economica En este libro se busca resituar el análisis para hacerse cargo de la complejidad de las transformaciones de la sociedad mexicana a través de sus jóvenes. En el esfuerzo por asumir las diversidades en los modos diferenciales y desiguales en que se expresa la condición juvenil hoy, se logra inscribir la importancia crucial para el México contemporáneo de pensar —y entender— a sus jóvenes.

YOUTH AND HISTORY

TRADITION AND CHANGE IN EUROPEAN AGE RELATIONS, 1770-PRESENT

Elsevier Youth and History: Tradition and Change in European Age Relations 1770 - Present, Expanded Student Edition deals with the patterns of behavior and styles that characterizes the youth in a particular period of time. Chapters in the book discuss such topics as the description of youth in preindustrial Europe; the emergence of separate working class and middle class traditions of youth and the conflict between these traditions, as it was institutionalized in the academic and extracurricular cultures of the early twentieth century; and the youth tradition in the volatile 1950s and 1960s. Psychologists, sociologists, and historians will find the book insightful.

REPRESENTATIONS OF YOUTH

THE STUDY OF YOUTH AND ADOLESCENCE IN BRITAIN AND AMERICA

John Wiley & Sons Representations of Youth examines the various constructions of 'youth' and 'adolescence' in recent British and North American research. Mainstream and radical approaches have presented a series of 'crises' about young people in relation to, among other things, unemployment, 'teenage pregnancy' and 'delinquency'. This book considers research in psychology, sociology, education, criminology and cultural studies in order to assess these accounts. The author offers a critical review of a wide range of findings about young people in areas as diverse as education and training, leisure, family life and sexuality. She shows that whilst youth research texts do not reflect young people's experiences in any straightforward manner, they do indicate the various complex and contradictory ways in which 'youth', 'adolescence' and specific groups of young people are represented in contemporary western societies. In so arguing, she presents new terms for thinking about the position of young people today. This is an important new text accessibly written for students of sociology, social psychology and contemporary culture in both Britain and the USA. It will also be of great interest to social science researchers in a range of other disciplines.

STREET GANGS, MIGRATION AND ETHNICITY

Routledge This book is the third publication from the Eurogang Network, a cross-national collaboration of researchers (from both North America and Europe) devoted to comparative and multi-national research on youth gangs. It provides a unique insight into the influence of migration on local gang formation and development, paying particular attention to the importance of ethnicity. The book also explores the challenges that migration and ethnicity pose for responding effectively to the growth of such gangs, particularly in areas where public discourse on such issues is restricted. Chapters in the book are concerned to address both situations where there have been longstanding problems with street gangs as well as areas where such issues have just started to emerge. A variety of different research traditions and approaches are represented, including ethnographic methods, self-report surveys and interviews, official records data and victim interviews. It will be essential reading for anybody interested in the phenomenon of street and youth gangs.

1989: YOUNG PEOPLE AND SOCIAL CHANGE AFTER THE FALL OF THE BERLIN WALL

Council of Europe After the collapse of state socialism at the end of the 1980s, young people in Eastern Europe began to play a dramatically different role in society. Once cast as the vital, reinvigorating protagonists of the communist ideal, they emerged as promoters of democratisation and agents of a now hegemonic market system. Twenty years after the fall of the Berlin Wall in November 1989, an event symbolising both the lifting of the Iron Curtain and the end of the Cold War, an international seminar was held in Budapest to discuss how the opening of eastern European societies to western Europe and the world had changed the living conditions and experiences of young people growing up in the region. This collection of essays, based on this seminar, examines the circumstances of young people in eastern Europe before and after 1989 from a variety of angles: their transition to adulthood; their living conditions; the scope they have for social participation; the way in which they construct their identities and constitute and represent current social realities; their cultures and genders; and the interplay of continuities and discontinuities around this historic watershed. This book, which pays particularly close attention to the relationship between research, policy and practice, is an

invaluable tool for anyone wishing to achieve a deeper understanding of young people in Eastern Europe today.

GENERATION X GOES GLOBAL

MAPPING A YOUTH CULTURE IN MOTION

Routledge This edited volume is the first book of its kind to engage criticse(tm) understanding of Generation X as a global phenomenon. Citing case studies from around the world, the research collected here broadens the picture of Generation X as a demographic and a worldview. The book traces the global and local flows that determine the identity of each countrye(tm)s youth from the 1970s to today. Bringing together twenty scholars working on fifteen different countries and residing in eight different nations, this book present a community of diverse disciplinary voices. Contributors explore the converging properties of "Generation X" through the fields of literature, media studies, youth culture, popular culture, sociology, philosophy, feminism, and political science. Their ideas also enter into conversation with fourteen other "textbox" contributors who address the question of "Who is Generation X" in other countries. Taken together, they present a highly interactive and open book format whose conversations extend to the reading public on the website www.generationxgoesglobal.com.

RETHINKING YOUNG PEOPLE'S MARGINALISATION

BEYOND NEO-LIBERAL FUTURES?

Routledge In the 21st century myriad earth systems – atmospheric systems, ocean systems, land systems, neo-Liberal capitalism – are in crisis. These crises are deeply related. Taking diverse and multiple forms, they have diverse and multiple consequences and are evidenced in such things as war, everyday violence, hate and extremism, global flows of millions of the dispossessed and homeless; and in the precarious, uncertain, and marginal existence of millions more. Rethinking Young People's Marginalisation is concerned with the experience, affect, and effects of these earth systems crises on: • young people's life chances, life choices, and life courses • young people's engagement with education, training, and work • the character of young people's being and becoming, their gendered embodiment, their participation in cultures of democracy, their resilience, and their marginalisation. Indeed, in setting out to rethink young people's marginalisation, this insightful volume makes a contribution to troubling key concepts in Youth Studies, primarily: structure and agency; transitions and pathways; gender and embodiment, citizenship, risk, and resilience. It does this by drawing on a variety of critical, theoretical traditions, including Bauman's engagement with the ambivalence of the human condition; Foucault's studies of mentalities of government and genealogies of the subject; the critique of the politics of disposability and violence of neo-Liberalism undertaken by Giroux, and the authors of Kilburn Manifesto; Braidotti's vitalist posthumanism; and Haraway's figure of the Chthulucene. Analysing the ways in which young people engage in and develop new cultures of democracy, Rethinking Young People's Marginalisation will appeal to postgraduate students and postdoctoral researchers interested in fields such as Youth Studies, Youth Sociology, Education Studies, and Critical Social Theory.

BARRIO GANGS

STREET LIFE AND IDENTITY IN SOUTHERN CALIFORNIA

University of Texas Press *Within the Mexican American barrios of Los Angeles, gang activity, including crime and violent acts, has grown and flourished. In the past, community leaders and law enforcement officials have approached the problem, not as something that needs to be understood, but only as something to be gotten rid of. Rejecting that approach, James D. Vigil asserts that only by understanding the complex factors that give birth and persistence to gangs can gang violence be ended. Drawing on many years of experience in the barrios as a youth worker, high school teacher, and researcher, Vigil identifies the elements from which gangs spring: isolation from the dominant culture, poverty, family stress and crowded households, peer pressure, and the adolescent struggle for self-identity. Using interviews with actual gang members, he reveals how the gang often functions as parent, school, and law enforcement in the absence of other role models in the gang members' lives. And he accounts for the longevity of gangs, sometimes over decades, by showing how they offer barrio youth a sense of identity and belonging nowhere else available.*

BRITISH CULTURAL STUDIES

Routledge *is a comprehensive introduction to the British tradition of cultural studies. Turner offers an accessible overview of the central themes that have informed British cultural studies: language, semiotics, Marxism and ideology, individualism, subjectivity and discourse. Beginning with a history of cultural studies, Turner discusses the work of such pioneers as Raymond Williams, Richard Hoggart, E. P. Thompson, Stuart Hall and the Birmingham Centre for Contemporary Cultural Studies. He then explores the central theorists and categories of British cultural studies: texts and contexts; audience; everyday life; ideology; politics, gender and race. The third edition of this successful text has been fully revised and updated to include: * How to apply the principles of cultural studies and how to read a text * An overview of recent ethnographic studies * Discussion of anthropological theories of consumption * Questions of identity and new ethnicities * How to do cultural studies, and an evaluation of recent research methodologies * A fully updated and comprehensive bibliography*

CLIMATE CHANGE AND DEVELOPMENT

Routledge *The evidence for human-induced climate change is now overwhelming, the brunt of its impacts is already being felt by poor people, and the case for urgent action is compelling. This book addresses the two greatest challenges of our time - averting catastrophic climate change and eradicating poverty - and the close interconnections between them. Climate Change and Development provides a comprehensive and multi-disciplinary foundation for understanding the complex and tangled relationship between development and climate change. It argues that transformational approaches are required in order to reconcile poverty reduction and climate protection and secure sustained prosperity in the twenty first century. Section One provides the building blocks for understanding climate science and the nexus between climate and development. Section Two outlines responses to climate change from the perspective of developing countries, with chapters on international agreements, climate change mitigation and adaptation, and climate finance. Each chapter offers analytical tools for evaluating responses, enabling readers to ask smart questions*

about the climate change and development nexus as policy and action evolve in the coming years. The last three chapters of the book, contained in Section Three, are forward looking and focus on why and how development must be re-framed to deliver more equitable and sustainable outcomes. This section sets out different critiques of 'development-as-usual' and explores alternative paradigms of development in a warming and resource-constrained world. This is an invaluable and clearly written text that uses real world examples to bring to life perspectives from across different disciplines. It also contains chapter learning outcomes, and end of chapter summaries, discussion questions, and suggestions for further reading and relevant websites. The text is suitable for both undergraduate and postgraduate students, as well as those working in international development contexts who wish to get to grips with this pressing global challenge.

THE AMERICAN STREET GANG

ITS NATURE, PREVALENCE, AND CONTROL

Studies in Crime and Public Policy About street gangs in the United States.

BEFORE EMERGENCY: CONFLICT PREVENTION AND THE MEDIA

Universidad de Deusto This book is about two prominent issues: conflict prevention, and the media. Conflict prevention is a challenging concept for the media because journalists normally work on current affairs: reporting what is going on now, not trying to change the course of events in the medium or long term. However, the media can also play a determinant role in conflict prevention by providing swift and reliable information of emerging or potential conflicts to local and external actors. Governments, international organizations and public opinion alike need in-depth understanding of pre- and post-conflict social, economic, cultural and political environments in order to fully understand the benefits and feasibility of preventive policies.

LIFE IN THE GANG

FAMILY, FRIENDS, AND VIOLENCE

Cambridge University Press This study is based on three years of field work with 99 active gang members and 24 family members. The book describes the attractiveness of gangs, the process of joining, their chaotic and loose organisation, and their members' predominant activities - mostly hanging out, drinking, and using drugs. The authors also discuss gang members' rather slapdash involvement in major property crime and their disorganised participation in drug traffic, as well as the often fatal consequences of their violent life-style. Although the book focuses on the individual, organisational, and institutional aspects of gang membership, it also explores gang members' involvement with other school and neighborhood structures. Extensive interviews with family members provide groundbreaking insights into the gang members' lives. As much as possible, however, the story is told in the gang members' own words.

'CHILDREN OUT OF PLACE' AND HUMAN RIGHTS

IN MEMORY OF JUDITH ENNEW

Springer This volume brings together tributes to Judith Ennew's work and approach based on issues related to children she once referred to as 'out of place', that is to say children whose living conditions and ways of life appear far removed from Western images of childhood. It includes contributions on working children, children living on the street, orphans and victims of sexual exploitation. It covers developments and concepts used by Judith Ennew with an emphasis on perspectives of children's human rights, their participation, cultural sensitivity, research methodology, methods, ethics, monitoring, policy making and programming. In so doing, it brings together material that form a holistic view of not only her way of thinking, but of a policy and programming agenda developed by a number of researchers, academics and activists since the adoption of the UN Convention on the Rights of the Child.

GANGS

THE ORIGINS AND IMPACT OF CONTEMPORARY YOUTH GANGS IN THE UNITED STATES

SUNY Press This book is an examination of contemporary gangs in American cities. Gangs have proliferated over the past ten years and pose a new set of challenges to public officials, law enforcement agencies, and urban educators. Most major cities are now confronted with serious problems derived from gang violence, drug traffic, and disruption of the public educational system. In the face of deindustrialization and deepening recession, many minority youngsters view gangs as attractive alternatives to a futile search for employment in a deteriorating urban economy. Perhaps most significant, gangs are now beginning to emerge in small and medium-sized cities. Some of the nation's leading scientists and scholars have been brought together in this book to examine the contemporary contours of America's gang problem, including Daniel J. Monti, Joan Moore, Scott Cummings, Howard Pinderhughes, Diego Vigil, Ray Hutchison, Felix Padilla, Jerome H. Skolnick, Pat Jackson, and Robert A. Destro. New material dealing with wilding gangs, migration and drug trafficking, and public educational disruption appear in this volume. Other topics covered include how gangs are organized, what social function they serve, their relation to conventional society, and the social and psychological factors that contribute to their rise. The relationship of the contemporary gang problem to past research is explored, and a rich variety of case histories and comparative analysis is presented. The book also includes a section on public policy.
