PLANETARY ECONOMICS

ENERGY, CLIMATE CHANGE AND THE THREE DOMAINS OF SUSTAINABLE DEVELOPMENT

How well do our assumptions about the global challenges of energy, environment and economic development fit the facts? Energy prices have varied hugely between countries and over time, yet the share of national income spent on energy has remained surprisingly constant. The foundational theories of economic growth account for only about half the growth observed in practice. Despite escalating warnings for more than two decades about the planetary risks of rising greenhouse gas emissions, most governments have seemed powerless to change course. Planetary Economics shows the surprising links between these seemingly unconnected facts. It argues that tackling the energy and environmental problems of the 21st Century requires three different domains of decision-making to be recognised and connected. Each domain involves different theoretical foundations, draws on different areas of evidence, and implies different policies. The book shows that the transformation of energy systems involves all three domains - and each is equally important. From them flow three pillars of policy - three quite distinct kinds of actions that need to be taken, which rest on fundamentally different principles. Any pillar on its own will fail. Only by understanding all three, and fitting them together, do we have any hope of changing course. And if we do, the oft-assumed conflict between economy and the environment dissolves - with potential for benefits to both. Planetary Economics charts how.

AIR FORCE HANDBOOK 1

AIRMAN

This handbook implements AFPD 36-22, Air Force Military Training. Information in this handbook is primarily from Air Force publications and contains a compilation of policies, procedures, and standards that guide Airmen's actions within the Profession of Arms. This handbook applies to the Regular Air Force, Air Force Reserve and Air National Guard. This handbook contains the basic information Airmen need to understand the professionalism required within the Profession of Arms. Attachment 1 contains references and supporting information used in this publication. This handbook is the sole source reference for the development of study guides to support the enlisted promotion system. Enlisted Airmen will use these study guide to prepare for their Promotion Fitness Examination (PFE) or United States Air Force Supervisory Examination (USAFSE).

THE DOCTOR IN LITERATURE

SATISFACTION OR RESENTMENT?

Radcliffe Publishing Posen, a retired physician and a former English major, has indexed 1500 passages from approximately 600 novels, short stories and plays describing physicians. He also analyzes several persistent themes in literature, such as doctors' fees, lack of time, bedside manner and social status. Posen's extensive research has uncovered a resentment of doctors and a discontent with the medical profession that transcends time and place. THE DOMINANT IDEOLOGY THESIS (RLE SOCIAL THEORY)

Routledge As a radical critique of theoretical sociological orthodoxy, The Dominant Ideology Thesis has generated controversy since first publication. It has also been widely accepted, however, as a major critical appraisal of one central theoretical concern within modern Marxism and an important contribution to the current debate about the functions of ideology in social life.

THE EVERYDAY RESILIENCE OF THE CITY

HOW CITIES RESPOND TO TERRORISM AND DISASTER

Springer This book examines the practice of urban resilience past and present, drawing on deeper global historical sources and detailed case-studies of contemporary Britain. It argues that resilience is neither new nor necessarily about protecting ordinary people, but part of a long struggle over the control of cities.

CRIMINOLOGY

EXPLAINING CRIME AND ITS CONTEXT

Routledge This highly acclaimed criminology text presents an up-to-date review and analysis of criminological theories. It incorporates current examples of deterrence research regarding crimes such as domestic violence, drunk driving, and capital punishment, and features thought-provoking discussion of the relativity of crime. The authors explore the crime problem, its context, and the causes of crime. Extensive discussion of evolving laws is included, and while the prevalence of the scientific method in the field of criminology is highlighted, the impact of ideology on explanations of crime is the cornerstone of the book. This new edition includes extensive revision of Chapter 6, now titled "Biosocial Theories of Crime," retaining much of the thoughtful historical discussion of earlier editions, but incorporating a substantial expansion of current biological research integrated with both social and biological variables. In addition, Chapter 10, "Recent Developments in Criminological Theory," offers an expanded treatment of life-course criminology.

MANAGERIAL AND ENTREPRENEURIAL DECISION MAKING

EMERGING ISSUES

MDPI Since the conceptualization of bounded rationality, management scholars started investigating how people—managers and entrepreneurs—really make decisions within (and for) organizations. The aim of this eBook is to deeply investigate trends that have flourished within this pivotal research area in conceptual and/or empirical terms, trying to provide new insights on how managers and entrepreneurs make decisions within and for organizations. In this vein, readers that approach this eBook will be taken by hand and accompanied to the discovery of how the mind of decision makers is at the basis of organizational developments or failures. In this regard, published contributions in this eBook underline how executives and entrepreneurs must be ecologically rational, thus be aware of the negative and positive effects that biases can have depending on the context and use them at their advantage. Managerial and entrepreneurial decision-making are phenomena that cannot be detached from the environment in which executives and entrepreneurs are embedded, claiming to establish new approaches to research that looks at decision-making as an individual/group/organization-environment dialectical and multi-level phenomenon.

ANCIENT EGYPT TRANSFORMED

THE MIDDLE KINGDOM

Metropolitan Museum of Art The Middle Kingdom (ca. 2030–1650 B.C.) was a transformational period in ancient Egypt, during which older artistic conventions, cultural principles, religious beliefs, and political systems were revived and reimagined. Ancient Egypt Transformed presents a comprehensive picture of the art of the Middle Kingdom, arguably the least known of Egypt's three kingdoms and yet one that saw the creation of powerful, compelling works rendered with great subtlety and sensitivity. The book brings together nearly 300 diverse works— including sculpture, relief decoration, stelae, jewelry, coffins, funerary objects, and personal possessions from the world's leading collections of Egyptian art. Essays on architecture, statuary, tomb and temple relief decoration, and stele explore how Middle Kingdom artists adapted forms and iconography of the Old Kingdom, using existing conventions to create strikingly original works. Twelve lavishly illustrated chapters, each with a scholarly essay and entries on related objects, begin with discussions of the distinctive art that arose in the south during the early Middle Kingdom, the artistic developments that followed the return to Egypt's traditional capital in the north, and the renewed construction of pyramid complexes. Thematic chapters devoted to the pharaoh, royal women, the court, and the vital role of family explore art created for different strata of Egyptian society, while others provide insight into Egypt's expanding relations with foreign lands and the themes of Middle Kingdom literature. The era's religious beliefs and practices, such as the pilgrimage to Abydos, are revealed through magnificent objects created for tombs, chapels, and temples. Finally, the book discusses Middle Kingdom archaeological sites, including excavations undertaken by the Metropolitan Museum over a number of decades. Written by an international team of respected Egyptologists and Middle Kingdom specialists, the text provides recent scholarship and fresh insights, making the book an authoritative resource.

U. S. ARMY AND THE MEDIA IN THE 20TH CENTURY

DIANE Publishing This is a print on demand edition of a hard to find publication. Surveys the U.S. Army's approach to media relations from the Spanish-American War to the first Gulf War. The relationship between the Army and the media is considered in the broader context of the U.S. Government's approach to info. mgmt. (IM) Here is an overview of how the U.S. Army has approached its relations with the media over the previous century. Since World War I a number of bureaucratic manifestations of IM have been tried in wartime. With the exception of the U.S. Info. Agency, whose tenure spanned the period from 1953 to 1999, all the other manifestations of bureaucratic IM rose and fell during the wars in which they were created. The need for units in the field to participate in IM is a major challenge for future operations. Illus.

Not illustrated. 1917 edition. Excerpt: ... (6) Columns for Discount on Purchases and Discount on Notes on the same side of the Cash Book; (c) Columns for Discount on Sales and Cash Sales on the debit side of the Cash Book; (d) Departmental columns in the Sales Book and in the Purchase Book. Controlling Accounts.--The addition of special columns in books of original entry makes possible the keeping of Controlling Accounts. The most common examples of such accounts are Accounts Receivable account and Accounts Payable account. These summary accounts, respectively, displace individual customers' and creditors' accounts in the Ledger. The customers' accounts are then segregated in another book called the Sales Ledger or Customers' Ledger, while the creditors' accounts are kept in the Purchase or Creditors' Ledger. The original Ledger, now much reduced in size, is called the General Ledger. The Trial Balance now refers to the accounts in the General Ledger. It is evident that the task of taking a Trial Balance is greatly simplified because so many fewer accounts are involved. A Schedule of Accounts Receivable is then prepared, consisting of the balances found in the Sales Ledger, and its total must agree with the balance of the Accounts Receivable account shown in the Trial Balance. A similar Schedule of Accounts Payable, made up of all the balances in the Purchase Ledger, is prepared, and it must agree with the balance of the Accounts Payable account of the General Ledger." The Balance Sheet.--In the more elementary part of the text, the student learned how to prepare a Statement of Assets and Liabilities for the purpose of disclosing the net capital of an enterprise. In the present chapter he was shown how to prepare a similar statement, the Balance Sheet. For all practical...

DAMAGE CONTROL

A NEW HORIZON IN ACCIDENT PREVENTION AND COST IMPROVEMENT

International Loss Control Inst This book makes a strong case for investigating accidents, not just those cases which produce injuries. The study of accidents instead of injuries does not downgrade the importance of preventing human injury. Rather, it recognizes that many "no-injury accidents" might have resulted in personal injury, property damage, or both. If the causes of accidents--whether or not they result in injury--can be ferreted out, if it can be determined what unsafe conditions, or unsafe acts, or any combination was responsible for the accident, there is reason to believe that greater progress in preventing "accidents" and injuries is possible.

CHOCTAW FOOD

REMEMBERING THE LAND, REKINDLING ANCIENT KNOWLEDGE

"Choctaw Food tells the story of a group of people and the land. Through hundreds of generations living in the American Southeast, Choctaw ancestors wove the region's landscapes into their language, culture, and food. The foodway that they developed was local and productive. Its dishes were flavorful and healthy. Its food production activities brought the community together in a way that was sustainable on the land. Today, this foodway is one of the most threatened parts of our traditional culture. Yes, it contains timeless insights that have the potential to improve quality of life in the 21st century. The pages of this book delve deep into Choctaw history to bring to light the type of practical knowledge needed to bring Indigenous Choctaw food back to the family dinner table. This story is uniquely Choctaw, and yet, it is connected with the heritage of everyone who has ancestors that lived closely with the land."--Page 4 of cover.

COYOTE WISDOM

Annotation This especially substantial folkish son-of-a-gun stew concocted by J. Frank Dobie and associates is distinguished by a wide variety of materials; there is also an equally great variation in methods of treatment, ranging from the simplest recording of single items, like anecdotes, folk remedies or sayings, through the skilfully retold primitive legend, to the scientific, though quite idiomatic, anthropological report, and to the scholarly analysis of the philosophy of the folk. The theme and hero of the volume, Old Man Coyote, animal and folk character, is enlighteningly discussed in the Aztec meanings of his name, the many nicknames attached to him, his remarkably clever tricks and ability to take care of himself, his pre-eminent place in Indian folklore as a creative power, his ubiquity in Mexican lore, his similarity to such other animal tricksters as Reynard the Fox and Br'er Rabbit. Indian legends are well represented in other contributions while folk customs appear in two vividly contrasted accounts. The spirit of the frontier folk enlivens several articles. Book jacket.

FOUNDATIONS FOR MISSION

Wipf and Stock Publishers This volume provides an important resource for those wishing to gain an overview of significant issues in contemporary missiology whilst understanding how they are applied in particular contexts. Contributors from across the globe and from different Christian traditions explore foundations for mission. The chapters examine in what ways experience, the Bible, and theology are foundational for mission and how they together inform the missional thought of different traditions. The book also raises questions about the continued use of foundations as a helpful metaphor mission reflection and impetus. Graduate students and scholars surveying the field will find this a useful and accessible way to understand changing trends within mission studies.
