Miles in Love

Baen Two complete novels and a short novel in one large volume: Komarr—Miles Vorkosigan is sent to Komarr, a planet that could be a garden with a thousand more years of terraforming; or an uninhabitable wasteland, if the terraforming project fails. The solar mirror vital to the project has been shattered by a ship hurtling off course, and Miles Vorkosigan has been sent to find out if it was an accident, or sabotage. Miles uncovers a plot that could exile him from Barrayar forever—and discovers an unexpected ally, one with wounds as deep and honor as beleaguered as his own. A Civil Campaign—On Komarr, Miles met the beautiful Vor widow Ekaterin Vorsoisson, who has no intention of getting married after the heartbreak and betrayal of her first experience. But Miles has a cunning plan to change her mind. Unfortunately his clone-brother Mark and his cousin Ivan have cunning plans of their own, and the three-way collision of cunning plans threatens to undo Miles's brilliant romantic strategy. "Winterfair Gifts"—Miles and Ekaterin make elaborate preparations for their wedding. But Miles has an enemy who is plotting to turn the romantic ceremony into a festival of death.

Captain Vorpatril's Alliance

Baen **NEW YORK TIMES BESTSELLER** in hardcover. With new cover treatment for mass market paperback. A new installment in the award-winning Vorkosigan science fiction adventure series. Captain Ivan Vorpatril sometimes thinks that if not for his family, he might have no troubles at all. But he has the dubious fortune of the hyperactive Miles Vorkosigan as a cousin, which has too often led to his getting dragged into one of Miles' schemes, with risk to life and limb—and military career—that Ivan doesn't consider entirely fair. Much practice has made Ivan more adept at fending off his mother's less-than-subtle reminders that he should be getting married and continuing the Vorpatril lineage. Fortunately, his current duty is on the planet Komarr as staff officer to Admiral Desplains, far from both his cousin and his mother back on their homeworld of Barrayar. It's an easy assignment and nobody is shooting at him. What could go wrong? Plenty, it turns out, when Byerly Vorrutyer, an undercover agent for Imperial Security, shows up on his doorstep and asks him to make the acquaintance of a young woman, recently arrived on Komarr, who seems to be in danger. That Byerly is characteristically vague about the nature of the danger, not to mention the lady's name, should have been Ivan's first clue, but Ivan is no more able to turn aside from aiding a damsel in distress than he could resist trying to rescue a kitten from a tree. It is but a short step down the road of good intentions to the tangle of Ivan's life, in trouble with the Komarran authorities, with his superiors, and with the lethal figures hunting the mysterious but lovely Tej and her exotic blue companion Rish—a tangle to test the lengths to which Ivan will go as an inspired protector. But though his predicament is complicated, at least Ivan doesn't have to worry about hassle from family. Or so he believes. Electric Sheep Slouching Towards Bethlehem

Speculative Fiction in a Post Modern World

Cambridge Scholars Publishing On Monday, 8:15 a.m., August 6, 1945, the world changed forever. In the single largest act of destruction ever initiated by humans, a bomb with the equivalent force of 20,000 tons of TNT shattered Hiroshima, killing tens of thousands of civilians, people who had become used to the American war planes flying overhead, planes that were purposely not dropping bombs on their city, to the point where the rush to the bomb shelters had become lackadaisical, and the normal activities continued with little interruption - getting the children up and off to school, opening the many small retail stores for the daily customers, perhaps stopping at a local café for morning coffee or tea, perhaps joining in on the group exercise classes. This is the precise instant we entered the postmodern world, one where the easy truths of centuries no longer applied. Speculative Fiction projects real possibilities beyond the now shattered assumptions, moving through marginalized fictional landscapes - science fiction, fantasy, horror, weird fiction, supernatural fiction, superhero comics, graphic novels, and movies, utopian and dystopian fiction, apocalyptic and post-apocalyptic fiction, Cyber Punk, the New Wave, as well as related static, motion, and virtual arts, including everything from graphic novels to video games.
